## ***From the Desk of the International Conference Chairperson***

As a part of the IBMRD Team, I am glad to announce that we have received overwhelming response from participants across countries for the International Conference titled "Interface of Information Technology". The International Conference was aimed at providing a forum for discussion on various interfaces of Information Technology that is currently gaining momentum in fast paced competitive corporate world. Technology is changing & being updated at very high rate. Many organizations perceive Information Technology as a tool for bringing transformation in the business scenario. I am proud to state that the contribution made by a large number of participants including various corporate professionals, researchers, academicians & students belonging to the field of IT & business was remarkable in this endeavour. After thorough review of research papers as submitted by several contributors, our Research Advisory Board have consented 100+ participants to present their papers towards the referee panel at the International Conference.

As per our publication policy, It is a matter of great privilege for us to announce that the first 30 selected papers as reviewed by the referee panel at the International Conference will be a part of 'IBMRD's Journal of Management and Research' ISSN: 2277-7830, issue Oct. 2013. Also the best papers as presented by the participant from each theme of the conference shall be awarded with cash prize of Rs. 10,000 each & shall also be reimbursed with all travelling & boarding expenses incurred for the International Conference. The remaining selected papers will be a part of forthcoming issue of April 2014 of the Journal.

This conference proceeding is an eminent fact that various researchers, academic & corporate thinkers have contributed to share their ideas on the various subthemes of the International Conference. We are obliged to receive full papers from various parts of globe including South America, Mexico, Iraq, Egypt, Thailand, Sudan, Ethiopia, Syria, Uganda, Yemen, West Asian countries including Iran, Israel and African countries like Kenya. I am thankful to all participants & paper presenters for their contribution in this International Conference.

I hope there have been considerable additions in our learning through this International Conference. The overall focus of the Universal Interface and Information Technology Access is on accessibility and usability of current and emerging information technologies. This includes access to information content in its various forms, as well as access to interfaces used within content and by electronic technologies in general. The desired outcome of this work is a seamless integration of the various technologies used by individuals with disabilities in the home, the community, and the workplace.

Towards this, I take an opportunity to thank the eminent dignitaries of the Research Advisory Board, our Patrons & Host advisory board members, the participants from India & abroad, our faculty & supporting staff at IBMRD & above all our sponsoring partners-AICTE, MAMI, AMMI, University of Pune & our Associate Partner-Terasoft Technologies Ltd. for rendering their continuous support for the success of this International Conference.

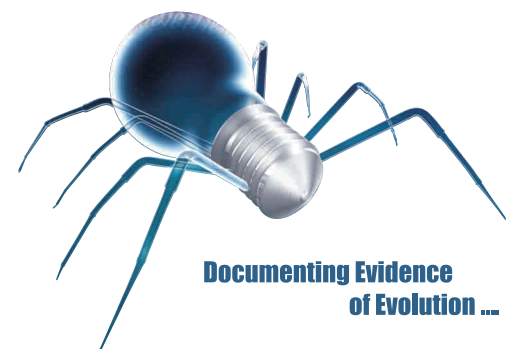

I wish you all great success ahead to continue. Thank you

**Warm Regards,**

**Prof. Dr. Arun Ingle**  
Conference Chairperson.

**Prof. Dr. Arun Ingle**  
Director, IBMRD.

## ABOUT IBMRD

The journey of a thousand miles begins with a single step. But, it is the first step that involves deliberation and much hesitation. The journey of pioneer- Padmashree Dr. Vithalrao Vikhe Patil began with a surge of enthusiasm that initiated the Sugar Co-operative movement. He had a humble beginning & was chiefly instrumental in organizing the exploited sugarcane growers of the 44 villages, in and around Pravaranagar, way back in 1948. These herculean efforts made it possible to establish Asia's first cooperative sugar factory that was commissioned in 1950.

Subsequently, IBMRD was established in 1986 under the management of Padmashree Dr. Vithalrao Vikhe Patil Foundation, Ahmednagar. The other institutions of this foundation are: Engineering College, Pharmacy College, Medical College & Hospital, Nursing College, Physiotherapy College and Industrial Training Institute. A single campus at picturesque Vilad Ghat measuring 17 acres provides an operational base for these institutions. Located in the hilly region near the Ahmednagar-Shirdi-Manmad highway, our campus provides a healthy environment for a student- clean air, greenery, and a tranquil environment to aid in studying and being creative. The campus is located near the holy shrine of Shirdi, and is equidistant from Pune, Aurangabad, and Nashik. Besides the administrative blocks, academic buildings and a library, we have a gymkhana, cafeterias, computer room; separate hostel facilities are available for boys and girls, and a hospital providing 24-hr service. The library carries more than 16000 volumes on all branches of management, and more than 50 journals, while our computer room is equipped with more than 300 computers, all internet ready.

## OUR VISION

“To create an overall learning environment, where in ordinary people can do extraordinary things”

## OUR MISSION

“To create wealth Creators.”

## Programme offered by IBMRD

### Master of Business Administration (MBA)

(2 Years Full time Post Graduate Master Degree Programme)
