

**MA-AYYAN OF MARS
(Alien)****M.Arulmani, B.E.**

(Engineer)

V.R.Hema Latha

M.A., M.Sc., M.Phil. (Biologist)

Abstract:

The MA-AYYAN shall be considered as the prehistoric human populations who lived in MARS planet. The Ma-Ayyan populations shall also be called as Akkie populations (Alien). Akkie shall mean star human who were BLACK in colour. When lived in MARS they might have different genetic structure having super wisdom. They were considered as expert in Astronomical science and could be capable of controlling various planets in the space and successfully managing the prehistoric climatic conditions. They controlled the alignment of planets in remote control by electromagnetic radiation with advanced digital communication in code system called MARS CODE. The MARS CODE system shall be considered as the advanced communications with only single alphabet consists of three-in one logic code system.

It is speculated that in the expanding universe and various subsequent abnormal climatic conditions the prehistoric populations lived in MARS could be completely extinct at one stage and human populations might have started living on EARTH subsequently at latter period. It is speculated that the populations of lost continent of LEMURIA and ATLANTIC populations might be descended from prehistoric Akkie populations.

Key words: Alien, Mayan, Assyrian, Magi, Ather energy, Black box code, logos.

1.Introduction

The Ma-Ayyan populations shall be considered as Tamil Based Indian who lived in MARS in prehistoric time. The Ma Ayyan populations shall be considered as seed and genetic link to the modern human population started living on Earth subsequently with different genetic structure. It is speculated that the Ma-Ayyan populations while live in MARS had advanced civilization in constructing superstructures, advanced communications systems for controlling the planets. They might have utilized the Natural Pyramids as communication towers called MARS TOWERS.

It is speculated that the ancient mayan populations (Mesopotemia) around 2000 years ago might be derived from prehistoric Ma-Ayyan populations and they might have derived communication system techniques, language system in code form from them. Further it is speculated that the modern communication system having scientific languages such as morse code, Binary code, Braille code might be derived from the philosophy of MARS CODE system. Mars code shall be considered as 3-in-one logic system used in Astronomy appliances.

Figure 1

The right dot shall be considered responsible for functional part, left dot shall be considered responsible for structural part, centre dot shall be considered for law part responsible for sequential operation.

In medical term the 3 in one logic shall be considered as equivalent as follows:

- Right dot - DNA
- Left dot - HORMONE
- Centre dot - RNA

The philosophy of Neutrinos, origin of life, shape of universe was already published in scientific article in IJSRP April 2013 titled as Cosmo Super Star, and in IJSER May

2013 titled as Super Scientist of climate control. This article shall be treated as extended version of previous published articles with additional case studies.

2.Foreword

The ancient mayan populations are considered as mystic persons having super wisdom, advanced civilization, skilled communications, and expert in astronomical science. They were believed have lived before 2000 years ago and also called as MESOAMERICANS Atlas was considered as the father of Mayas. Some Case study data about ancient mayan is indicated as below:

- Mahamaya, the great maya of the Hindus in India. In Mexican culture Maya believed to have come from atlan the Mexican home land across the east ocean – Mythology
- Maya a member of Mesoamerican civilization that existed in and around Guatemala in the 4th to 10th century.
- Maya is prominent deity of the Asura's which Earth God is invoked for universe as – Yajurveda.
- Mayan culture is known as the beginning of civilization. It is the period where developed writing literacy and developed.
- Mayan were great astronomers and expert in solar calendar, mayan calendar glyps.
- Mayan developed unique mathematical system and used base 20 numerals with dot and dash.
- May a year has basic unit called kiln a word that means day, sun, etc.
- In Sanskrit maya means illusion.
- In early vedic literature varunas supernatural power is called Maya.
- In puranas and vaishnavas theology maya is described as one of nine Shaktis of Sishnu.
- In sangam period tamil literature Krishna is found as Mayon with attributed names Mal, Thirumal, perumal and mayavan.
- In early Buddhist practice Maya is called as mother of Buddha.
- In pali language maya means distortion.
- Maya refers to the “great illusion”, of materialism – Guru Granth Sahib.
- Maya means supremeself (or) ultimate reality – shankaracharya.

It is focused that Ancient mayan was expert in calendar design, probably might be originated from SIVAKASI of Tamilnad which is famous for calendar design and print. In the recent past, the stipulation on mayan calendar December 21, 2012 was interpreted as end of world.

3.Hypothesis

Ma-Ayyan shall be considered as Tamil based Indian who lived in MARS in prehistoric time. Further the philosophy of Ma-Ayyan shall be defined within the following scope.

- Ma-Ayyan populations had only three chromosome called star human.
- Ma-Ayyan populations had different genetic characteristics and capable of flying.
- Ma-Ayyan subsisted with ozone breath when lived in MARS.
- Ma-Ayyan populations were great astronomer and formulated the shape of universe and relative position of sun, earth, moon in prehistoric time.
- Ma-Ayyan had mighty power, super wisdom, and called as super scientists.

4.Etymology

The word Ma-Ayyan shall be considered into two parts (i) Ma (ii) Ayyan. It is focused that the above two parts of word might be derived from prehistoric tamil phonetics.

- Ma shall mean Great
- Ayyan shall mean Father
- Ma-Ayyan shall mean Father Supremo of MARS

5.Hypothetical Definition

5.1.Origin Of Ma-Ayyan

It is hypothesized that Ma-Ayyan might be the first life originated and started living on MARS in prehistoric time. The first life might be spontaneously evolved due to electromagnetic radiation (EMR). It is focused that scientists believe that spontaneous origin of life is not possible due to lightning which was already established by primordial soup theory. It is hypothesized that spontaneous generation life may not be possible due to artificial lightning created in the laboratory, but it is possible due to

impact of natural electromagnetic radiation derived from Aether Energy particles photon, electron, proton.

Ma-Ayyan might have been originated from dark energy due to impact of electromagnetic radiation, and derived three chromosome one each from photon, electron, proton on origin. It is focused that lightning can't be treated at par with electromagnetic radiation. It is speculated that lightning and electromagnetic radiation shall be considered as having different physical, chemical, mathematical properties.

Further electromagnetic radiation shall be treated as distinguished matter from conventional three state of matter liquid, gas, solid.

In prehistoric time the philosophy of Aether energy electromagnetic radiation (EMR) might be derived from Tamil phonetics a) Akkie, b) Kathiri

- Akkie shall mean Aether Energy Kathiri shall mean EMR - Author

It is speculated that there is difference between Aether Energy and EMR Aether energy shall be considered as prior stage to EMR (or) it shall be considered as proto-EMR. The Aether Energy shall also be considered as three fundamental Neutrinos charged particles called Godly particles.

Figure 2

Figure 3

The right dot shall be considered as proton responsible for functional part of matter, left dot shall be considered as electron responsible for structural part of matter, centre dot shall be considered as photon responsible for law part of matter.

It is speculated that Akkie (Aether Energy) might be evolved from DARK flame which shall be considered as the origin (or) centromere of cosmo universe. The philosophy of dark flame might be derived from prehistoric tamil phonetics karithiri. Karithiri shall mean dark flame which is much more different from Neutrinos (Aether energy) and EMR.

Figure 4

5.2.Philosophy Of AKKIE, MARS, KODU

It is focused that the prehistoric Ma-Ayyan populations shall be considered as great Astronomers and expert in Electromagnetic Radiation and advanced digital communication through CODE form. The word Akkie, Mars, Kodu shall be considered as prehistoric tamil phonetics used in electromagnetic applications.

- Akkie shall mean Aether Energy
- Mars shall mean Antenna
- Kodu shall mean Ray, Radiation

- It is focused by the author that the philosophy of Dot, Dash, character used in digital applications might be derived from the philosophy Ma-Ayyan populations
..... Author

MARS CODE shall be defined as the prehistoric scientific language in code form with character dot, dash.

Figure 5

5.3. MA-Ayyan is MARS Code Product?

It is focused that MA-Ayyan shall be considered as MARS Product. His HEART shall be considered source of Aether energy (Akkie), CHEST shall be considered as MARS (MARBU Rib as Antenna), Every heart pulse produced shall be considered as electromagnetic wave.

Figure 6

5.4. Philosophy Of MAGI?

It is hypothesized that the Ma-Ayyan populations when lived in MARS were great astronomers and cosmology. They might have formulated the integral part of Sun, Earth, Moon as MAGI. The etymology of MAGI might be derived from prehistoric tamil phonetics MA-AKKIE

- MA shall mean Great
- AKKIE shall mean Neutrinos
- MA-AKKIE shall mean Great star or Mega star

In prehistoric time when lived in MARS MA-Ayyan might also be called as Cosmo Super star, Star human.

- Author

Figure 7

In Biblical case study Assyrians are considered as ancient populations having high civilized life and literacy. Further the term Magi is considered as three wise men who were guided by Mega star to the birth spot of child Jesus to witness and honour the child. It is speculated that the philosophy of MAGI might be derived from the philosophy of prehistoric Tamil phonetics MA-AKKIE.

The prehistoric relative position of sun, earth, moon formulated by MA-Ayyan populations with three tiny dot called as MARS CODE shall be indicated as below:

Prehistoric “three dot” formula related to Star	Three dot alphabet usage in global languages.
<p>➤ Three dot is considered as relative position” of Sun, Earth, Moon in prehistoric “Astronomy”.</p> 	<p>The three dot Prehistoric Tamil code is considered in usage in various global languages.</p> <ul style="list-style-type: none"> ➤ Ancient Hebrew language ➤ Ancient Arab language ➤ Ancient Persian language ➤ Ancient Sanskrit language (Brahmi)

Table 1

5.5.Model Cosmo Universe?

It is focused that the Ma-Ayyan populations were expert in cosmology and considered the whole cosmo universe as a TRIPOD like closed container having three different regions having different physical, chemical, mathematical properties and formulated with three tiny dot. The base of universe shall be considered as Triangular shape consists of

sun, earth, moon as corner pillar rotating on its axis. In prehistoric tamil the cosmo universe might be called as AKKILEM (AKKIE + EZHEM)

Figure 8

Figure 9

The entire shape of Cosmo Universe shall be considered as just like a Pyramidal structure with three base elements, which shall be shown pictorially as follows.

- Region – I .. Antineutrinos radiation region (Black radiation)
- Region – II .. Neutrinos radiation region (Stardust radiation)

- Region – III .. EMR and Matter region (Einstein region)

•

The Cosmo region shall be considered as the highly Cold region emitting Black radiation. Region III shall be considered as the highly hot region.

In prehistoric time the MA-Ayyan populations have effectively controlled all the planets. In the expanding universe the regulating of various planetary position might have been found essential in Prehistoric time.

Case study shows that moon is going away 3.8 cm per year. The relative position of sun, earth, moon in prehistoric time and modern time shall be indicated as below:

Figure 10

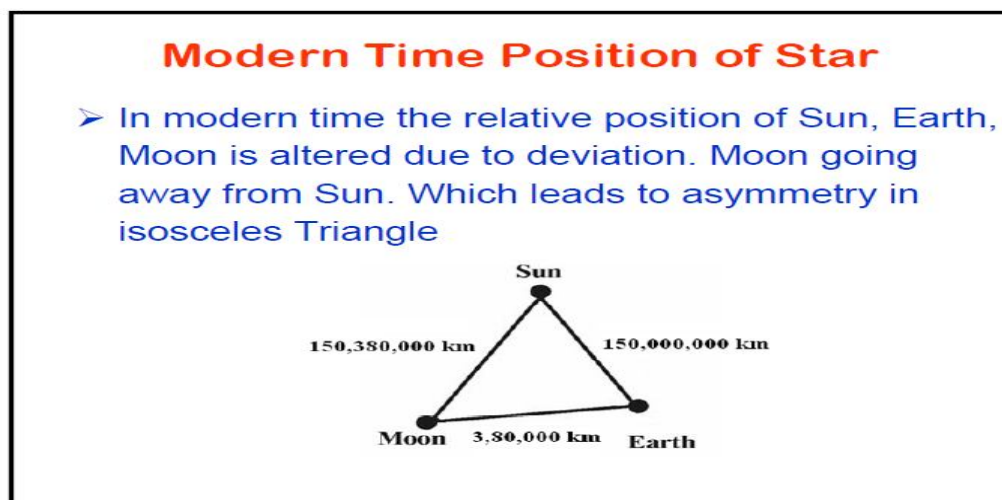

Figure 11

5.6.MARS The Mother Of All Planets?

It is hypothesized that MARS shall be considered as first planet evolved in the whole cosmo universe and shall be considered as mother of all planets. Sun, Earth, Moon shall be considered as the three children evolved from MARS in different course of time. In other words sun, earth, moon shall be considered as three species planets of MARS. All other planets, satellites, asteroids, comets shall be considered as the sub species space objects to the three fundamental species sun, earth, moon. It is focused that the Prehistoric MA-Ayyan populations might have already formulated the lineage of evolution of Mars, sun, earth, moon with prehistoric scientific language in code form as below:

Figure 12

- centre dot – Sun [First evolved]
- left dot – Earth [Second evolved]
- Right dot – Moon [Third evolved]

It is speculated that the MA – AYYAN populations started living in MARS even before Sun emits its light. Hence the MA-Ayyan populations might be also called as Akkie populations. Akkie shall mean Black.

Further it is focused that in prehistoric time MARS was highly influenced with Ozone. Oxygen might not be evolved at that time and Oxygen might have been evolved from Ozone at much later period. Hence the blood of MA-Ayyan might be highly acidic and PH value might be well below 7.4 say 3.0.

(vii) How MA-Ayyan looks like?

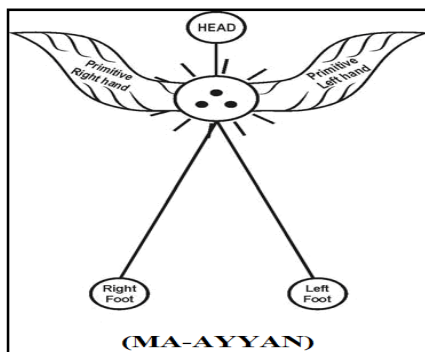

Figure 13

It is focused that the modern human having two hands with proper figures. It is hypothesized that the prehistoric populations while living in MARS (EZHEM) might be having wing like hands in the primitive level due to different chromosome level and genetic structure. Further the 48 chromosome Apes are slightly deviated hands structure compared to modern human. It is focused that 3 chromosome human, 46 chromosome human shall be considered much senior to Apes which is having 48 chromosome.

The MA – Ayyan shall be considered as 3 Chromosome human evolved spontaneously due to impact of Electromagnetic radiation from Akkie (Aether energy) and derived three chromosome one each from Photon, Electron, Proton. The photon, Electron, Proton shall be considered as fundamental three. Tamil Neutrinos (A,K,J) also called as Godly Pathd as of universe.

5.8.MA- Ayyan Prophecy About End Of World?

MA- Ayyan populations speculated that Sun, Moon are not orbiting any planets but rotates only on its axis. Various seasons might happen due to relative position of Outer Core, Inner Core of Sun, Earth, Moon.

Further they speculated that the inner core of Sun also rotates on its axis and completes One Cycle by 3000AD. It is speculated that the world may come to an end by 3000AD.

6.Conclusion

In Prehistoric time the base of Universe was Symmetric as the movement of Moon was effectively controlled and aligned by MA-Ayyan Populations. In expanding Universe as the Moon is going away from its axis the base of Universe slowly gets altered and become asymmetry in Modern time. It is speculated that frequent earth quakes, Volcanic activity, severe climate change condition might Occur due to this increased level of asymmetry in the base of Universe. It is the need of the hour to restore the base of Universe to be Symmetric through advanced global level research for sustainability of Earth Modern human.

It is speculated that future settlement of human may not be possible in other planets (or) other part of Universe. When foundation of Universe itself collapsed where is the question of existence of other planets in the Universe?

Figure 14

7. Case Study And Narration

7.1. Alien

In global level mythology Alien is referred to strange and frightening human living in another world or in outer space. It is speculated that the philosophy of Alien might be derived from Prehistoric tamil phonetics Akkie.

Figure 15

7.2. Akkilen

Akkie, Akkilen shall mean Black populations lived in MARS.

Figure 16

7.3.Ayah

The word ayah refers to Person whose job is caring for children. The philosophy of ayah might be derived from the philosophy of MA-Ayyan. MA-Ayyan shall mean Supremo of MARS who cares for his children.

7.4.AMAH, MUM

The word Amah, mum refers to mother. It is speculated that the philosophy of word mother might be derived from Prehistoric Tamil phonetics MAAMI. Maami shall mean MA-Ammu which means mother Supremo (or) mother of MARS.

Figure 17

7.5.ANGEL?

In global level mythology Angels are depicted as human Personality with wings, considered as mediator of God between Heaven and Earth. It is focused that Angel shall be considered as the prehistoric Mars populations having different genetic structure.

Angel shall be considered as TRISOMY. Trisomy shall mean prehistoric MARS HUMAN having three chromosomes on origin. In medical Science occurrence of Trisomy chromosome is considered as syndrome and abnormal third copy. It is focused by the author that Trisomy chromosome shall be considered as the genetic reflection of prehistoric human chromosome in modern human.

Figure 18

7.6.Crop Circle Formation?

There are so many theories are available regarding crop circle formation.. It is still under mystery among scientists whether Crops circle formation is Natural phenomena? (or) Human made act? It is focused by the author that Crop circle shall be considered as the 3-in-one Black box logic discs formatted by prehistoric populations while live in MARS for remote controlling of Various planets. Different Crop circle shall be considered as different electromagnetic disc for different application.

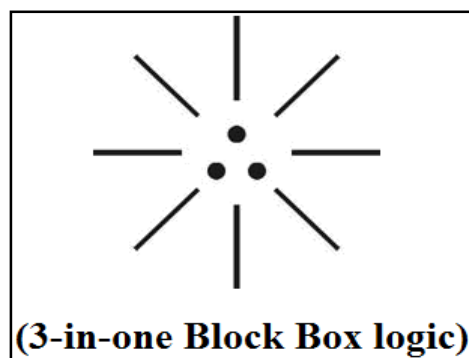

Figure 19

It is further focused that the philosophy of crop circle shall be referred to three fundamental classification of plants family say Aster aceal, Faba accae, Rosa accal and three fundamental domain of life.

Figure 20

Further case study shows that based on Barberry castle crop circle 1991, some researchers believe that the barberry formation was the “ ROSETTA STONE” to the understanding of geometric nature of dimensions in the UNIVERSE. It is speculated that artificial selection (Modification to DNA Traits) to the plants might be also called as crop circle formation.

7.7. What Is TRIBE?

In human anthropological science the term Tribe refers to the particular Race of human concerned due to genetic variation. It is focused by the author that the prehistoric human population while live in MARS had only 3 chromosome having different genetic structure with super wisdom.

Figure 21

Further it is speculated that Tribe shall also be referred to the philosophy of three regions of electromagnetic radiation spectrum (i.e) UV region, Visible Mid region, IR

region. The Tri-spectrum might be pronounced as Tribe in short during language evolution.

Figure 22

7.8. Human Is Nature?

Human shall be considered as spontaneously evolved product naturally due to impact of Electromagnetic radiation from dark energy (Aether energy)

Figure 23

Right dot shall be considered as responsible for functional part, Left dot shall be considered as responsible for structural part centre dot shall be considered responsible for law part of Nature.

It is focused by the author that every human is considered embossed with standard MARS CODE (Three tiny dot).

Figure 24

- Right dot – Right Nipple(Functional)
- Left dot – Left Nipple (Structural)
- Centre dot – NAVEL (Law of Nature)

It is speculated that every human, in every part of world being regulated by Aether energy everyday. NAVEL shall be considered as electromagnetic sensor connecting Aether energy of space and Human heart.

8.A New Theory On Human Origin And Human Anthropology

(Concept Of Author)

It is speculated that Human has more genetic value than Apes. In fact it shall be cited that Human shall be considered as the common ancestor to the family of Apes having different species.

A new theory proposed by the Author shall be called Human Origin 2013 Theory. The first human is hypothesized to have been evolved spontaneously from Dark Energy due to impact of EMR. The first human had only three chromosome on origin, derived three chromosome three fundamental Tamil Neutrinos A, K, J. A stands for Photon, K stands for Electron, I Stands for Proton. Photon is considered responsible for light energy, Electron is considered responsible for electric energy, Proton is considered responsible for Magnetic Energy.

The first human originated shall also be called as TRISOMY HUMAN (or) NATURAL HUMAN. NATURAL HUMAN shall mean perfect not regulated with Laws; because they themselves are laws. The natural human shall be considered as TRIBE.

The first Tribe is speculated to have been lived in MARS Planet (In Tamil called Ezhem). The philosophy of Tribe shall be defined within the scope of following.

- Tribe is of spontaneous origin.
- Tribe means 3 Chromosome human (Trisomy) (i.e.) Two autosome, one sex chromosome.
- Tribes are capable of flying.
- Tribes had super-wisdom, called as Superscientists, Great Astronomers.
- Tribes are Akkie populations. Akkie shall mean Black (or) Neutrinos particles.
- Tribes had single chamber heart on origin and single blood type AB.
- Tribes had ozone breath and acidic blood having low PH value.

It is speculated that MARS (EZHEM) shall be considered as the Mother of all planets and space objects. Sun, Earth, Moon shall be considered as the three children of MARS and evolved in much later period in different geological period.

The Akkie populations might have lived in MARS even before Sun gives red radiation. Hence the Tribes might have been Black in colour in Prehistoric time. Further the Mars might have been highly influenced with ozone due to absence of Red radiation of Sun. Due to this reason the Tribes might have subsisted with Ozone break.

When Sun started giving red radiation there might be the formation of three regions of electromagnetic spectrum, i.e. UV Region, Visible Mid Region, IR Region. Tribe shall also mean TRI-SPECTRUM. The word Tri-spectrum might be also pronounced dialectically as Tribes, during the course of language evolution.

During the course of expanding Universe and various prehistoric climate change conditions, the Tribes lived in MARS might be completely extinct at one stage and new human populations started living on EARTH with different genetic structure by Natural Selection.

While living on Earth the new populations might have switched over to OXYGEN breath from ozone. At particular geological period oxygen might be evolved due to severe depletion of Ozone Layer. In other words, the reduction of ozone level might lead human to switch over to oxygen breath.

When human started living on Earth they might have been developed with four chamber heart and four type blood system from universal type AB. In other words, the oxygen breath environment might pave way for expansion of additional chambers and additional

blood type. In prehistoric period the Tribes might have super-wisdom due to ozone breath. Subsequently when switch over to oxygen breath the wisdom level might be gradually reduced.

It is focused speculated that the three chromosome of Tribe shall be considered in-built with three fundamental colour element say BLUE, GREEN, RED. In Electromagnetic spectrum these three colours shall be considered as three species colours evolved from fundamental BLACK. Billions of colour rays of electromagnetic spectrum shall be considered Subspecies colours to the three fundamental species colour element Blue, Green, Red. Black shall be considered as absolute absorption state and White shall be considered as absolute emission state.

In human Anthropological science the etymology of word RACE might be derived from the word RAY. During the course of time human populations might have derived various colour complexion in skin, hair, eye iris due to different intensity level of electromagnetic radiation where the particular population resides. In other words Billions electromagnetic rays are considered responsible for billions of human species with different colour complexion.

In prehistoric time, the Anthropological Science might have classified human species according to the RAYS of region. During the course of language evolution the word Ray might be dialectically pronounced as RACE.

- In human Anthropological Science, Billions of human rays (Species) shall be considered as evolved from three fundamental Trisomy Chromosome called TRIBE. - Author

Further it is speculated that the growth of chromosome level might have impact on human intelligence and wisdom. The Intelligence, Wisdom shall be considered reduced gradually due to growth of chromosome. It is focused by the Author that Mosquitto having 6 chromosome, Amoeba having 12 chromosome shall be considered more intelligent compared to Modern Human having 46 Chromosome.
