***Abstract:***

*In Evolutionary Theory and Origin of Species Charles Darwin Sir has already established that human ancestors are of Apes Lineage and the first language might have been originated from hominid origin around 5,00,000 years ago.*

*In human Anthropological Science and Archeology evidence, it is evident that Indus Valley Civilization might be the world earliest human culture existed around 3000 BC. Based on intensive research and case study it is focused that the Akkie populations (called as Tamil based Indian) have already lived in MARS Planet in Prehistoric time. The advanced scientific language used by them shall be called as Akkie Code. Akkie code shall be considered as the series of dots produced by electromagnetic source. The MARS planet shall be considered as the mother of all planets where Akkie population lived before modern human started living with different genetic structure.*

***Key words:*** *Prehistoric Human, Akkie Population, Ezhem, Akkie Code, Philosophy Of Star, Neutrinos, Logos, Magi, Super Nature, Mu-Culture, Amulet.*

**1.Objective Of This Article**

Any search, research must be aimed to create better environment for society and must provide base for eradication of human difference such as racism, casteism, colour complexion and provides harmony and peace.

Even in 21<sup>st</sup> century global level racism, casteism, colour complexion exists. White skin population consider themselves superior to black skin population. It is regretted to note that beloved Gandhiji was humiliated in the history because of his Indian environment black skin.

It is focused that black, white shall not be considered as colours in fact black and white shall be considered as the different state of electromagnetic radiation intensity. The state of absolute absorption of radiation shall be considered as BLACK. The state of absolute emission of radiation shall be considered as WHITE. Further billions of human races in human anthropology shall be considered as each ray in electromagnetic spectrum and every ray is considered to have different wave length and frequency. Various human personnel traits such as skin colour, hair colour, eye iris, nose structure etc shall be considered as the effect of intensity of electromagnetic radiation where the particular population resides. In short it shall be stipulated that RAYS become RACE in human anthropology.

**2.Introduction**

In global level mythology such as Greek Mythology, Egyptian Mythology, it is focused that Mayan culture might be the most advanced civilization having advanced intelligence in astronomical science such as solar calendar, Mayan code languages and glyphs. In Tamil culture there is a belief that Lemurian population might be the most advanced civilization lived in ancient time in the lost continent of Lemuria. Rig Veda also focuses about Lemurian population called as MU Population. From Sangam literature it is understood that some of the ancient scholars such as Tholkappier, Thiruvalluvar, Nayanmars have contributed much to the development of ancient Tamil Language to become classic Tamil. In evolution of Tamil Language Sentamil is considered as a classic Tamil with 247 Tamil syllabic alphabets including 3 tiny dot alphabet called as Aytum letter, glitter letter. The Aytum letter found much usage in Thirukkural. But the origin of Aytum letter was not defined anywhere in the history of Tamil Language Evolution. So many Tamil Research Scholars such as Devaneyapavanar, Bishop Caldwell, Maraimalai Adigalar, have also not focused about origin of Aytum letter in

their research. The usage of Aytum letter not only exist in Tamil Language but also exist in other ancient global languages such as Sanskrit, Arabic, Hebrew, Persian. If so, who is the owner of the Aytum letter? Where it was originated? What was the philosophy of Aytum letter?

### **3.Foreword**

It is speculated that Tamil based Indian have already lived in Mars Planet in pre-historic time around 100 million years ago. It is focused that the land of prehistoric population might be called as EZHEM. The land of EZHEM might be called subsequently as MARS. The prehistoric population lived in Mars shall be called as Akkie population. Akkie shall mean black, star particles (Neutrinos). It is speculated that the Akkie population were great astronomers and expert in astronomical science in controlling various planets movements in the solar system. Further it is speculated that in the early universe Sun, Earth, Moon might have been evolved from MARS (EZHEM) planet stage by stage in different geological period during the course of expanding universe. The Sun, Earth, Moon shall also be considered as three fundamental species planets to the Mars planet. In other words MARS planet shall be considered as the mother of Sun, Earth, Moon.

As far as concerned about origin of human, the Akkie population might have evolved spontaneously due to electromagnetic radiation from Dark Energy of Universe and started living in Mars Planet even before the Sun gives red radiation. Hence Akkie population might have been dark in complexion. It is speculated that in human anthropological science the so called DRAVIDIAN population and ARYAN population might have been evolved subsequently after sun has given full fledged radiation. The Akkie population shall be considered as having mighty power compared to Dravidian, Aryian population. Further the Akkie population might have subsisted with ozone breathe having different genetic structure compared to Dravidian, Aryian population (Modern human) who subsists wth oxygen breathe.

### **4.Hypothesis**

The prehistoric population lived in land of Ezhem (MARS) shall be called as Akkie population. The Akkie population shall be defined within the following scope.

- The Akkie population was evolved spontaneously due to impact of electromagnetic radiation from dark energy.

- The Akkie population had only three chromosome on origin. The three chromosome might be derived from three fundamental neutrinos one each from photon, electron, proton.
- The Akkie population were great astronomers and formulated the relative position of Sun, Earth, Moon with three tiny dots called as Akkie code also called as MARS code. In other words the philosophy of Aytum letter, glitter letter shall mean the relative position of Sun, Earth, Moon in the Cosmo universe.
- There are so many theories are available for etymology of origin of word TAMIL, TAMILAKAM. It is hypothesized that the word Tamil, Tamilakam might be derived from prehistoric Tamil phonetics THAMEEZHEM. Thameezhem shall means dark land or land of Akkie population. The word Thameezhem shall be split into two parts i.e. Thamee and Ezhem. Thamee shall mean dark and Ezhem shall mean land.
- The etymology of word sangam might be derived from prehistoric Tamil phonetic SANKU. Sanku shall mean throat. It is speculated that during the so called Sangam period the human population might have spoken language through song. Further the etymology of song, sangeetham might have been derived from prehistoric Tamil phonetics Sanku.

## 5.Hypothetical Definition

### 5.1.Neutrinos

The etymology of neutrinos might be derived from prehistoric Tamil phonetic Akkie, Akkini, The Akkie, Akkini shall means the three fundamental charged particles of Universe photon, electron, neutron.

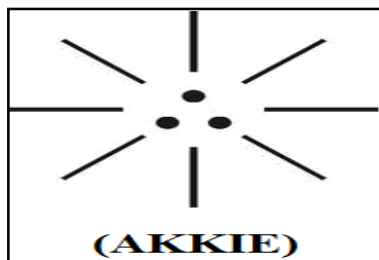

Figure 1

The right dot shall be considered as proton responsible for functional part of Universe (Dark Matter), left dot shall be considered as electron responsible for structural part of Universe (Dark Energy), the center dot shall be considered as law part of Universe (Dark Law).

In medical term the three neutrinos shall be considered as equivalent as follows:

- Proton – DNA
- Electron – HORMONE
- Photon – RNA

It is focused that AKKIE shall be considered as the human ancestor having three chromosome derived from three fundamental neutrinos.

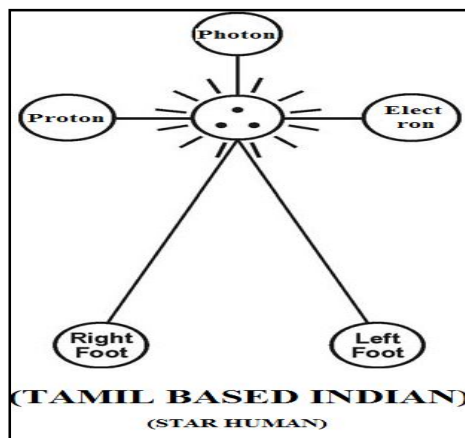

Figure 2

### 5.2. Philosophy of Star (MAGI)

The Akkie population have considered the relative position of Sun, Earth, Moon as integral part of star and act as base of universe. The etymology of Magi might be derived from prehistoric Tamil phonetics Ma-Akkie. Ma-Akkie shall mean star which shall be considered as base of universe.

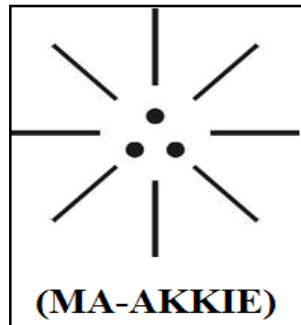

Figure 3

The right dot shall be considered as Moon, left dot shall be considered as Earth and center dot shall be considered as Sun.

### 5.3. Model Cosmo Universe

The shape of Cosmo universe is still under mystery in quantum physics. There are so many theories about shape of universe. The prehistoric Akkie population were great astronomers considered the whole Cosmo universe as TRIPOD like structure consists of three different regions with triangular base. The three region shall be considered as having different physical, chemical, mathematical properties and formulated the Cosmo universe with three tiny dots. The philosophy of Cosmo universe might be derived from the prehistoric Tamil phonetics AKKILEM (AKKIE + EZHEM). Akkilem shall means Cosmo universe having three integral regions.

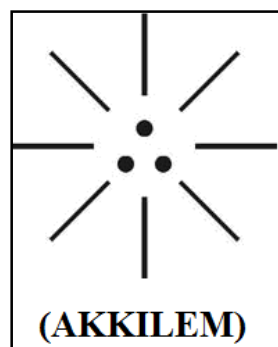

Figure 4

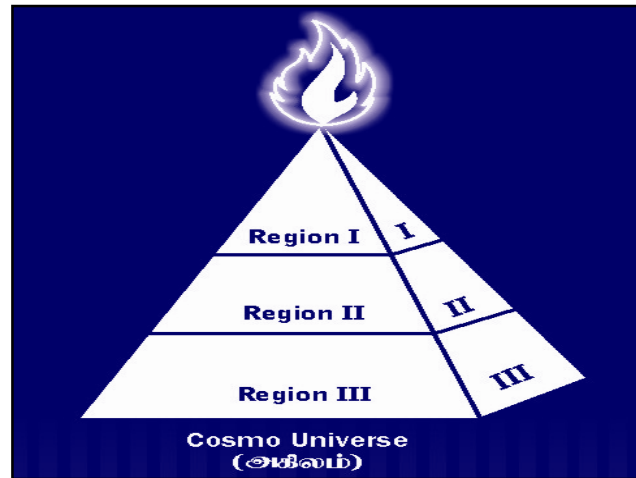

Figure 5

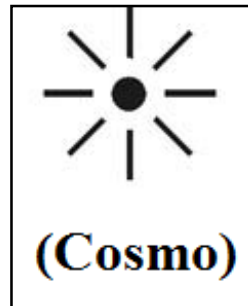

The entire shape of Cosmo Universe shall be considered as just like a Pyramidal structure with three base elements, which shall be shown pictorially as follows.

- Region – I .. Antineutrinos radiation region (Black radiation)
- Region – II .. Neutrinos radiation region (Stardust radiation)
- Region – III .. EMR and Matter region (Einstein region)

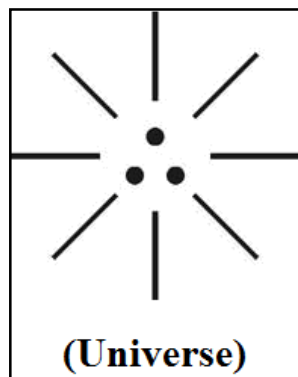

The Cosmo region shall be considered as the highly Cold region emitting Black radiation. Region III shall be considered as the highly hot region.

The region-III shall be considered as the material universe where all space matters like planets, satellites, asteroids, comets etc are existing under the strong gravity of region-I. The three region are having three different type of radiation with different properties. In prehistoric Tamil phonetics the three type of radiation might be called as KARITHIRI, KATHIRI (AKKIE), KATTHIRI.

- Karithiri - Dark Radiation (Region – I)
- Kathiri (Akkie) - Neutrino Radiation (Region – II)
- Katthiri - Electromagnetic Radiation (Region-III)

*Figure 6*

*Figure 7*

The philosophy of Arabic word ETH-MUBARAK might be derived from the philosophy of AKKILEM.

- ETH shall mean AKKIE (COSMO)
- MUBARAK shall mean EZHEM (UNIVERSE).

### **6.Philosophy Of Logo**

The logo refers to a brand or symbol used by organization to convey some predefined message or about the philosophy or organization. It is focused that the etymology of logo might be derived from prehistoric Tamil phonetics ILAKKAM. Illakkam shall means number. The Akkie population might have practiced mathematics and used Illakkam in code form.

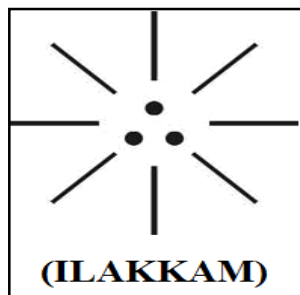

Figure 8

### 7.Philosophy Of Tribe

In human science, anthropology the term Tribe refers to human population descended from common ancestor or in the lineage of same blood group. However the distinction between human tribe and human race was not well defined in human anthropology. It is focused that Tribe and race have distinguished meaning. It is hypothesized that the Tribe shall be defined as prehistoric human having three chromosome. It is speculated that the Akkie population lived in MARS planet (Ezhem) shall be considered as the human ancestor having only three chromosome.

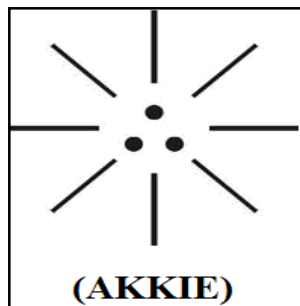

Figure 9

During the course of expanding universe modern human population (so called Dravidian, Aryan) might have been descended from prehistoric Akkie Tribe.

Further the Tribe shall be defined as the existence of three spectral region in the material universe. In other words the material universe (Regionn – III) shall be considered as having three regions of electromagnetic spectrum i.e. UV region, Visible region, IR region. These three region shall be considered as having different property responsible for evolution of various species, races in human according to that region of living. It is focused that the etymology of word Tri-spectrum might have been pronounced as TRIBE

during the course of evolution of language just like in the case of the word mythology pronounced as myths.

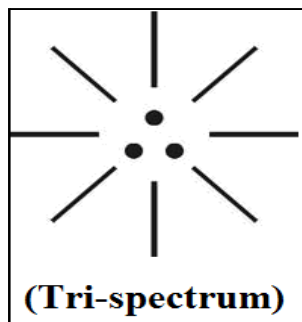

Figure 10

The right dot shall be considered as IR region, left dot shall be considered as visible region, center dot shall be considered as UV region. During the course of evolution of racism among human population the entire global population shall be considered as three fundamental ethnic group i.e. lion group, tiger group, elephant group. Various human races might have been classified as sub groups derived from three fundamental Lion, Tiger, Elephant ethnic group. The lion ethnic shall be considered as UV radiation, tiger ethnic shall be considered as visible radiation, the elephant ethnic shall be considered as IR radiation. In modern Tamil history it is speculated that the Chera, Chola, Pandya might have been descended from three fundamental ethnic group i.e. Chola from lion, Pandya from tiger, Chera from elephant.

It is focused that the Dravidian population on origin shall be considered as united people lived as a single MARS joint family. During the course of time the Dravidian population might have split into three major ethnic groups called TRIAN. Further the etymology of word Dravidian and the etymology of word Trian might have derived from prehistoric Tamil phonetics THIRI, THIRAI.

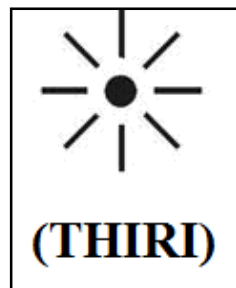

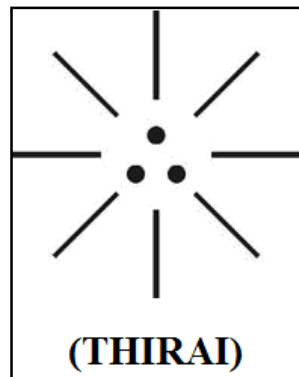

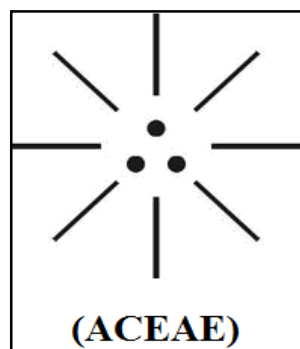

Figure 11

*Figure 12*

### **8.Philosophy Of Crop Circle Formation**

The philosophy of formation of crop circle throughout world is still under mystery. There are so many global level theory regarding reason for formation of crop circle. It is hypothesized that the reason for formation of crop circle shall be considered as due to the effect of electromagnetic radiation. Further different crop circle formation shall be considered as different type of electromagnetic disc contains predefined logic (just like in the case of different floppies for various software related to the modern personal computer). It is focused that the prehistoric Akkie population were great astronomer and might have utilized various electromagnetic disc containing different logic for controlling various planetary motion in their orbit. It is also speculated that various electromagnetic disc might have been utilized for devising so many plant crops by altering the DNA structure of the plant cells through Akkie (neutrino radiation). The various botanical names ends with Aceae in classifying the family name might be derived from the philosophy of Akkie energy.

*Figure 13*

The right dot shall be considered as Proton controlling DNA part of cell, the left dot shall be considered as Electron controlling hormone part of cell, the center dot shall be considered as RNA part of cell. It is focused that during the course of time when Akkie population lived in MARS planet might have developed various crops through various electromagnetic logic (called as crop circle) from existing natural plants. It is speculated that the effect of formation of crop circle during modern time may be due to the effect of radiation of prehistoric electromagnetic disc still available in MARS Planet (EZHEM). Further it is focused that the formation of various art in clouds shall also be considered as CLOUD CROP CIRCLE due to impact of electromagnetic radiation in different occasion and environmental condition.

### 9.Philosophy Of Super Nature

In natural science there is no clear definition about nature and super nature. In quantum physics still there is mystery about dark matter, dark energy. The Akkie population considers the nature as integral part of three parameters dark matter, dark energy, dark law and formulated the nature with three tiny dots.

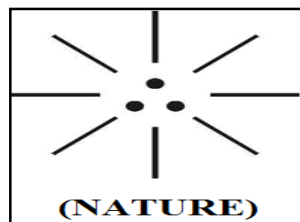

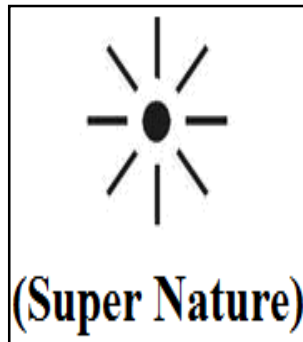

Figure 14

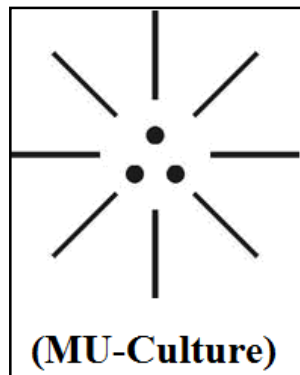

The right dot shall be considered as dark matter responsible for functional part of universe, left dot shall be considered as structural part of universe, the center dot shall be considered as law, sequence part of universe. Further the smallest unit of dark matter shall be considered as Atom, the smallest unit of dark energy shall be considered as Cell. It is focused that KARITHIRI (Cosmo) shall be considered as the origin of Cosmo universe called as SUPER NATURE. The three regions of universe shall be considered as evolved from Cosmo during the course of expanding universe.

*Figure 15*

### **10. Trinity Culture**

The Trinity culture refers to group of three integrated culture. It is speculated that the Akkie population lived in prehistoric time might have been also called as MU-Population. The philosophy of Trinity culture might be derived from the philosophy of Akkie, MU culture. In modern Tamil (Sen Tamil) the MU culture might have been called as MUTHAMIL culture.

*Figure 16*

It is focused that the three letter name Tamil culture such as EVR, MGR, KGR, JJA, OPS, MKS, TMS, MSV might be derived from the philosophy of prehistoric Akkie, Mu culture.

### **11. Acronym of word “E”**

It is hypothesized that the word “E” shall mean prehistoric land of EZHEM (MARS). Further the philosophy of English word E-mail, Ethernet, Etymon might be derived from

the prehistoric culture of Akkie population related to advanced digital communication through electromagnetic source.

Further it is focused that the etymology of word "E" might be derived from the philosophy of prehistoric three tiny dots code. It is evident from Indus valley civilization that the usage of three tiny dots code for acronym "E" shall be established.

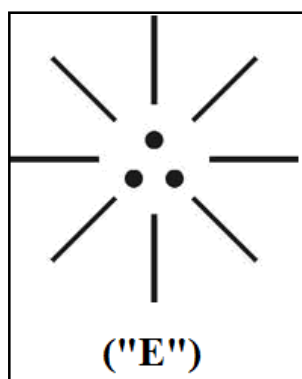

Figure 17

### 12.Millions Of Phonetics

Today there are thousands of languages in the world and each language may consists of millions of phonetics sound. Phonetics sound shall be considered as the fundamental need of any language for making into alphabet. In other words it can be focused that if there is no phonetics, there is no language. It is hypothesized by the author that millions of phonetics sound pertain to various global languages might have been derived from the fundamental three tiny dots phonetics (Triphthong) sound AKKIE.

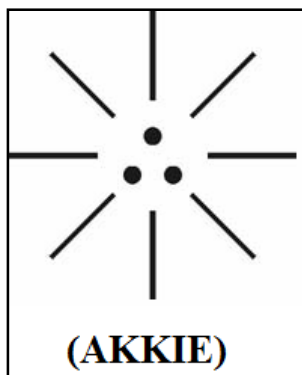

Figure 18

It is focused that the three tiny dot MARS code (AKKIE Code) is already in usage in ancient languages such as Hebrew, Persian, Arabic. Further the phonetics such as Ag, Agh, Ah, Akh etc. might be derived dialectically from the prehistoric phonetics sound AKKIE. It is hypothesized by the author that during the course of expanding universe the human tongue become genetically deviated to produce various deviated phonetics, These phonetics shall also be considered as variable universe constants in making various universal languages. MARS Code shall mean prehistoric language in three-in-one web.

### 13.Myths

The word myth refers to a story from ancient time to explain natural event or to describe the earlier history of people. In the archaeological science there is an existence of so many mythological belief such as Greek mythology, Roman mythology, Hindu mythology, etc. It is focused by the author that the etymology of word myths might be derived from prehistoric Tamil phonetics MUTHU. It is focused by the author that human tongue has been genetically variant due to different environment level of EMR exposure. In prehistoric time MUTHU shall means valuable and mystic resource of ocean. During the course of time the word MUTHU dialectally pronounced by foreign tongue as myths.

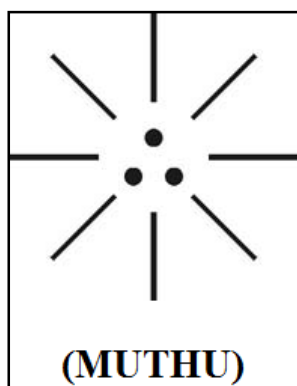

Figure 19

### 14.Philosophy Of Triphthong Related To Linguistics

It is hypothesized by the author that the three tiny dot Prehistoric MARS CODE shall be considered as the Electromagnetic Triphthong alphabet and shall be considered as the law of universe languages.

In the above configuration the right dot shall be considered as the functional part, the left dot shall be considered as the structural part and the centre dot shall be considered as the law part of Nature (or) Universe. Further the right dot shall be considered as the Universal Vowel, left dot shall be considered as the Universal consonant and the centre dot shall be considered as the Universal throat sound.

As per Medieval triphthong theory, the word triphthong shall be defined as a composite vowel sound during the articulation of which the vocal organs move from one position through a second, ending in a third. The Prehistoric MARS triphthong shall be defined as a single unique word which consists of three sounds and pronounced as AKKIE. All other pronunciation phonetic sound such as Ag, Agh, Akh, Ahk etc shall be considered as the dialect form of Akkie.

It is that the etymology of word language itself might be derived from the prehistoric tamil phonetics ILANGAM, ILAKKIAM Ilangam shall be considered as the child tongue and Ilakkiam shall be considered as classical tongue. In prehistoric time the MARS populations might have called mother as AMMU and subsequently called as AMMA. In other words the word AMMU shall be considered as language of child tongue and the word AMMA shall be considered as classical tongue. It is focused that the new born baby straightaway can't call mother as Amma. Initially they may call as AMMU (or) MUM.

It is further focused by the author that the tongue may vary from place to place depending upon the prevailing intensity of EMR. In Prehistoric time the tamil phonetics Three, Illam shall be dialectically pronounced by British tongue, American tongue, Chinese tongue, Korean tongue in different way.

	<b>Tamil</b>	<b>British</b>	<b>American</b>	<b>Chinese</b>	<b>Korean</b>
	Three	Tri	Tre	Ethree	Trio
	Illam	Elem	Elim	Ele	Elee

Further the Prehistoric populations while lived in MARS pronounce judgment with 3 value logic element Lip, Tongue, Heart, Jointly, rather than Lip, Tongue alone. It is focused that the Prehistoric populations formulated the philosophy of judgment with three tiny dot called MARS CODE.

Further it is hypothesized by the author that the concept CODE in dot form might be derived from the philosophy of heart beat sound Tic... Tic... Tic... and subsequently pronounced as dot... dot... dot...

### **15.Philosophy Of Dravidian**

It is focused that the Mars populations might be black in colour as there was no sunlight and the sun was considered as emitting full of Dark radiation (Black radiation). Hence the MARS planet also might be black in colour, and hence the MARS populations might be called as Akkie populations. The language spoken by Akkie populations shall also be called as Akkie tamil.

During the course of expanding Universe, at one stage the Sun starts emitting Red rays. During the period the black skin colour of Akkie populations might become Red/Brown colour. It is hypothesized by the author that the Red skin populations shall be called as DRAVIDIANS as stipulated in human history.

During the period the language spoken by the DRAVIDIAN populations shall be called as Sentamil (Red tamil).

Further the Prehistoric tamil word NITHIRAI shall mean the period when Sun emits Dark radiation. The word CHITHIRAI shall mean the period when sun emits Red radiation. CHITHIRAIAN, CHENDAN shall mean RISING SUN. CHITHIRA shall mean BOLD or NEW WOMAN. NITHILA shall mean mother, CHITHIRA shall mean daughter. Further Chithira shall mean new woman born when Sun started giving red radiation. The Dravidian population might have observed the day when Sun started giving red radiation as new era and observed as New Year in Tamil culture.

Based on colour of skin the three different races shall be called as below.

- Karuthamma - MARS race
- Ponnamma - Dravidian race
- Vellaiamma - Aryan race

### **16.Prehistoric Oyez Culture**

In English the term OYEZ refers to the whistling sound raised by the court masters while leading the judges to the chamber in the court by alerting the public. In prehistoric time the MARS population deliver the judgment by pronouncing jointly by lips, tongue and heart. This prehistoric practice might be also followed in modern time and the court

masters whistling the sound three times to remind the judge that the judgment shall be pronounced jointly by lip, tongue and heart rather than lip and tongue alone. Marshal mean prehistoric person who pronounce JUSTICE jointly by three parameters lips, tongue, heart. The trinity culture, trivium culture might be derived from prehistoric MARS Culture.

### 17. One Word And One Million Meanings

It is focused that in Braille Code, Morse Code, Binary Code by which comprehensive high level language shall be possible with two or three standard alphabets. Similarly the prehistoric human (AKKIE population) might have communicated with high level language with millions of meanings only with single alphabet with three tiny dots.

The prehistoric population might have called different family members having different meaning with single alphabet as mentioned below.

### 18.Hypothetical Blood Diversity

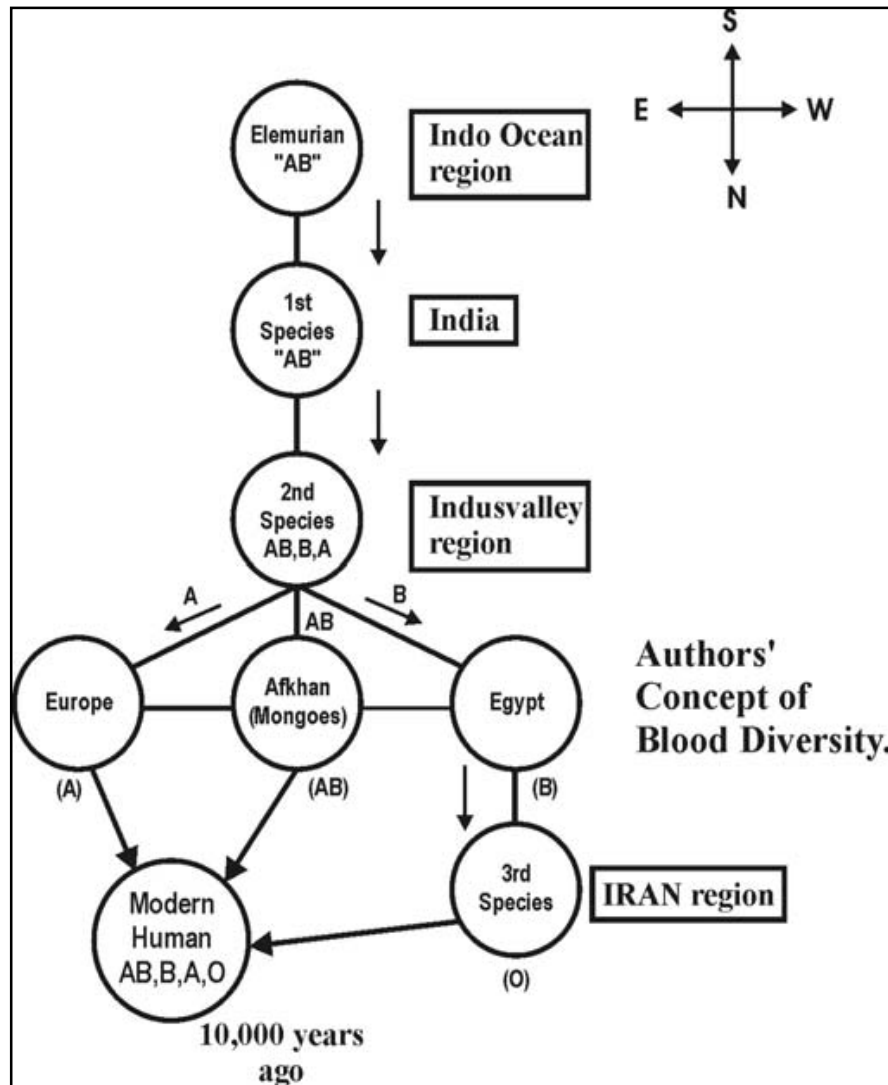

Figure 20

It is hypothesized by the author that from prehistoric time to modern time there may be three states of blood group might have been evolved due to impact of electromagnetic radiation. 'O' type blood (universal donor) might be evolved during modern period.

- Stage i – AB type only (MARS TRIBE)
- Stage ii – AB, A, B (DRAVIDIAN ORIGIN)
- Stage iii – AB, A, B, O (ARYAN ORIGIN)

It is focused that in the lineage of evolution all the four type of blood might not have been evolved at one stretch and might be evolved in phased manner. It is speculated that the origin of Dravidian population shall be considered much earlier to the origin of Aryan population.

ABORIGINAL shall mean AB+ORIGINAL i.e. AB type blood shall be considered as evolved on origin. It is focused that the blood type of prehistoric human shall be considered as AB type (Universal Acceptor).

### **19.Human Species**

It is focused that the modern human (Dravidian, Aryan) shall be considered as species to the prehistoric Akkie population lived in Ezhem (MARS planet) with different genetic structure. It is speculated that due to growth of chromosome level the size of human might have been gradually reduced.

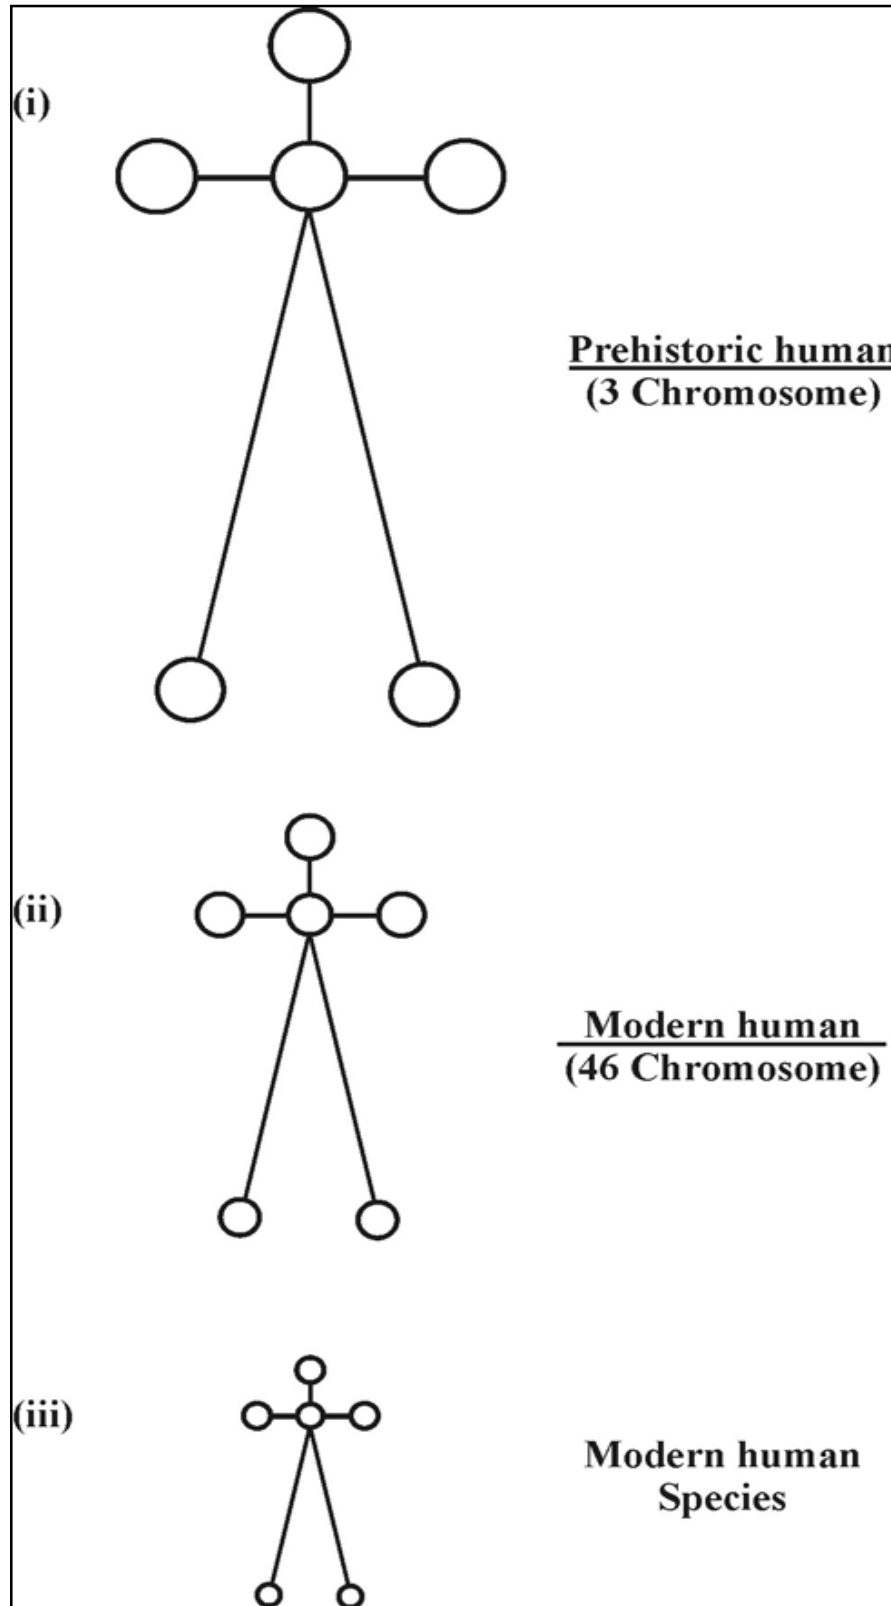

Figure 21

**20. Definition For Akkilen (Prehistoric Human)**

Akkilen shall be defined as the prehistoric human having three chromosome on origin and lived in Ezhem (MARS Planet) in prehistoric time. Further Akkile shall be considered as having only single chamber heart and having only one blood group system i.e. AB group (universal acceptor). It is focused that in evolution theory the four type of human blood i.e. AB, A, B, O might be evolved in phased manner and not at one stretch. Further the blood group A, B, O shall be considered as three species blood group to the fundamental AB group.

**21. Definition For Dravidian**

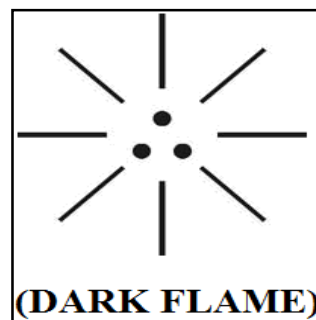

Dravidian shall be defined as the human population probably evolved during the period when the SUN started giving red radiation. It is speculated that Dravidian population originated with 46 chromosome having only three chamber heart and three blood group system i.e. AB, A, B.

**22. Definition For Aryan**

Aryan shall be defined as the human population evolved around 10,000 BC having 46 chromosome and four chamber heart and four blood group system. It is speculated that O group might have been evolved only in Aryan population. The Aryan population shall be considered as sub human species to Dravidian population.

**23. Definition for Single Chromosome Organism?**

It is hypothesized that KARITHIRI (COSMO) shall be considered as the supernatural organism having single chromosome. Karithiri shall be considered as the creative product. Karithiri shall mean Dark flame.

*Figure 22*

#### 24.Indo

In human anthropology the word Indo related to fundamental origin of human and language. It is speculated that the etymology of word Indo might be derived from the prehistoric Tamil phonetics EZHEM. Ezhem shall mean land of black population. Similarly the Sen Tamil word Thamizhem (Thamee + Ezhem) might be derived from the word Ezhem. Thamizhem shall mean land of black population.

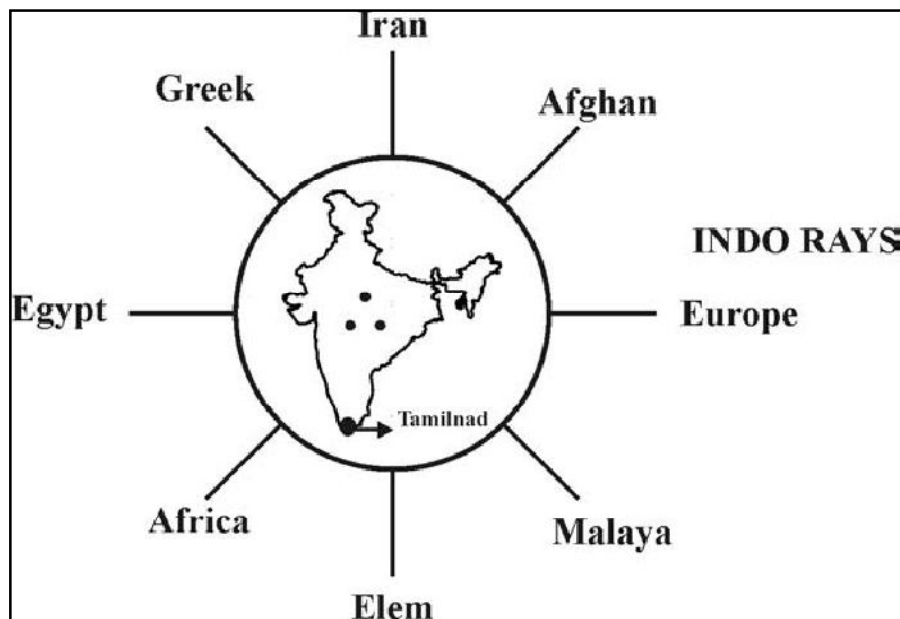

Figure 23

#### 25.Origin Of First Music

There are so many theories are existing about origin of first music and first music alphabet. It is focused that the first organized music might be derived from Akkie population who formulated the organized music with three tiny dots. The first music shall be called as Akkie music derived from star particles. The right dot shall be considered as vowel of the music, left dot shall be considered as consonant of music, center dot shall be considered as grammar, law of music.

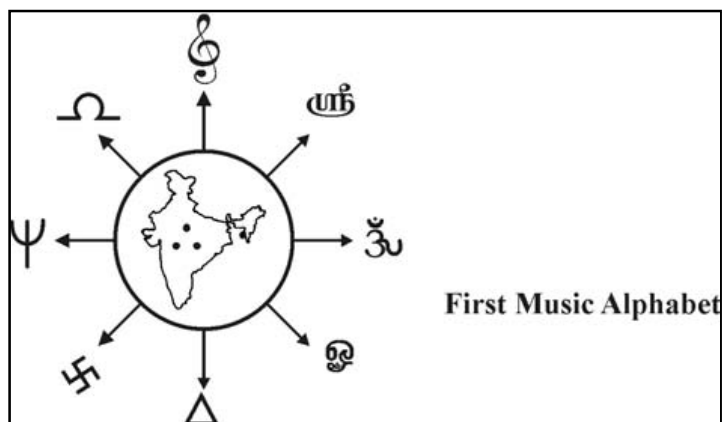

Figure 24

It is focused that the etymology of word SANGEETHAM shall mean SANKU + KEETHAM. The first organized music shall be considered as the sound emanated from three fundamental neutrinos (shall be called as Tamil neutrinos). The word SANKU means throat; the word KEETHAM means song; the word SANKU KEETHAM shall means ancient language spoken in the form of songs probably during the period of so called SANGAM period.

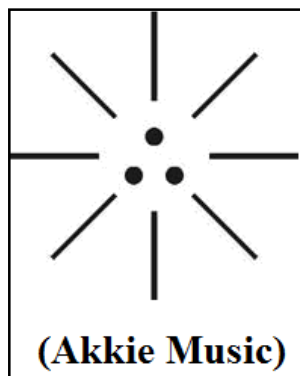

Figure 25

The philosophy of Akkie music (due to neutrino radiation) shall be understood from the theory of SCHUMAAN RESONANCE.

## 26. Philosophy Of Akkilen, Akkila

Akkilen, Akkila shall be considered as human ancestors lived in Ezhem (MARS Planet) in prehistoric time with different genetic structure and having super wisdom compared to modern human.

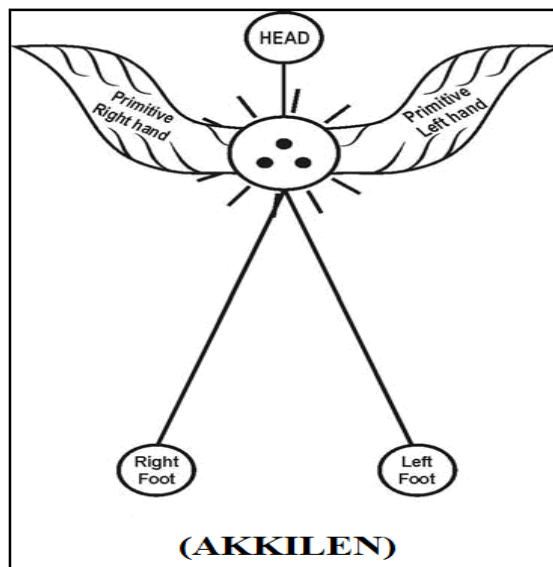

Figure 26

### 27. Definition For Akkilen

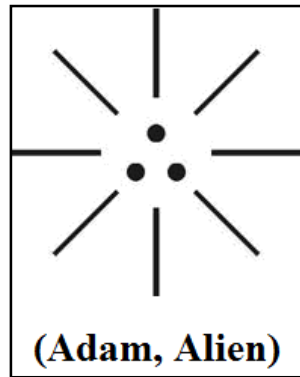

Akkilen shall be defined as the prehistoric human evolved spontaneously due to impact of electromagnetic radiation from dark energy. The dark energy shall be considered as tissue consists of photon, electron, proton and Akkilen shall be considered as having three chromosome derived each one from photon, electron, proton.

### 28. Genetic Value In Human Hand

It is focused that Modern human having two hands with proper fingers. It is hypothesized that the prehistoric populations while living in MARS might be having wing like hands in the Primitive level due to different chromosome level. Further the 48 Chromosome Apes are slightly deviated hands structure compared to Modern human. It is focused that 3 chromosome human, 46 chromosome humans are much senior to Apes who are having 48 chromosomes.

### 29. ADAM Is Tamil Based Indian?

It is hypothesized that ADAM might have been lived in EZHEM (MARS Planet) in prehistoric time. The Akkilen might have been also called as ADAM, ALIEN. Adam, alien shall mean prehistoric Akkie tribe having three chromosome having different genetic structure while lived in Ezhem.

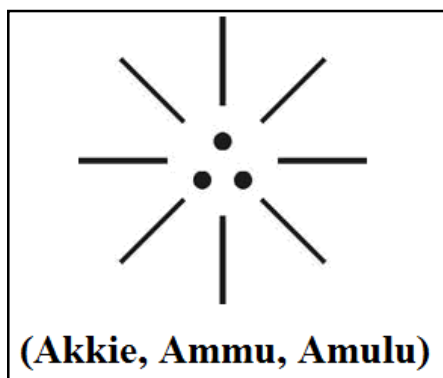

*Figure 27*

It is speculated that the ADAM population might have lived in EZHEM (MARS Planet) even before Sun gives red radiation and subsists with Ozone breathe. Due to different climate condition the ADAM population could have been completely extinct at one stage and new generation might have started on Earth planet with different genetic structure and subsists with Oxygen when Sun started giving red radiation. It is speculated that Oxygen might be evolved from Ozone at much later period.

### **30.The Philosophy Of “Amulet”**

Case study shows that the word Amulet derived from Latin word Amuletum meaning an object that protects a person from evil spirit, evil doers. Further Amulet technology is considered as advanced graphical technology which enable manufacturer and product designer to evolve new techniques through GUI (Graphical User Interface). Further Amulet macro preprocessor allows to create macros which are used to make text substitution throughout HTML project. Further it is focused that the prehistoric population might have used Amulet marking which might have acted as electromagnetic shield for protection against other distortion like lightning.

It is speculated that the Amulet technology might be derived from technology of Akkie population called as Akkie technology. It is focused that the philosophy of Amulet might be derived from prehistoric Tamil phonetics Akkie, Ammu, Amulu.

*Figure 28*

- Ezhem shall mean prehistoric land (MARS Planet)
- Akkie shall mean prehistoric human ancestor
- Akkilem shall mean the prehistoric world
- Ammu shall mean the mother supreme (KANNI THAI)
- Amutham shall mean the mother of global languages
- Amulet shall mean the super high technology

### **31.The Philosophy Of Self – Esteem Culture**

Self esteem culture shall be referred to prehistoric Akkie culture when akkie population lived in EZHEM (MARS planet). The term self esteem shall be defined as the absolute state of human having dark blood, dark skin, dark mind and emanating dark radiation. The self esteemed person shall be considered as having personal traits of self respect, Self confidence, self analysis. Further the philosophy of self esteem might have been derived from prehistoric Tamil phonetics THANIMAI. Thanimai shall mean free from human and mingled with Akkilan in the dark soil.

Further the following parameter shall be defined within the scope of **self esteem culture**.

- Self esteem shall mean free from politics
- Self esteem shall mean free from selfishness
- Self esteem shall mean free from human difference (ethnic)

*Figure 29*

The right dot shall be referred to dark mind; the left dot shall be referred to dark flesh; the center dot shall be referred to dark law.

### **32. Conclusion**

During the course of expanding universe and severe climatic conditions, the Akkie population lived in Mars have been completely extinct at one stage and might have started living on earth with different genetic structure. Further, it is speculated that Akkie population utilized advanced scientific language when lived in arrears for controlling various planets electromagnetically in code form with tiny dot shall be considered as the Mother of all global languages. It is speculated that so called Aytum letter, Glitter letter may be around 100 million years ago.

It is speculated that in the evolutionary theory the Charles Darwin Sir probably focused about the modern human started living on earth around 5,00,000 years ago. Further it is focused that the growth of chromosome plays major role in the lineage of evolution of organism. The prehistoric human who lived in Mars had only three chromosome and might be more senior to mosquito having six chromosome and Amoeba having twelve Chromosome. Further in the lineage of organism, mosquitos shall be considered as much senior to even Amoeba and more wise than modern human who have Forty Six Chromosome and evolved subsequently.

33.A tribute to the visible Adam (Electromagnetic Human)

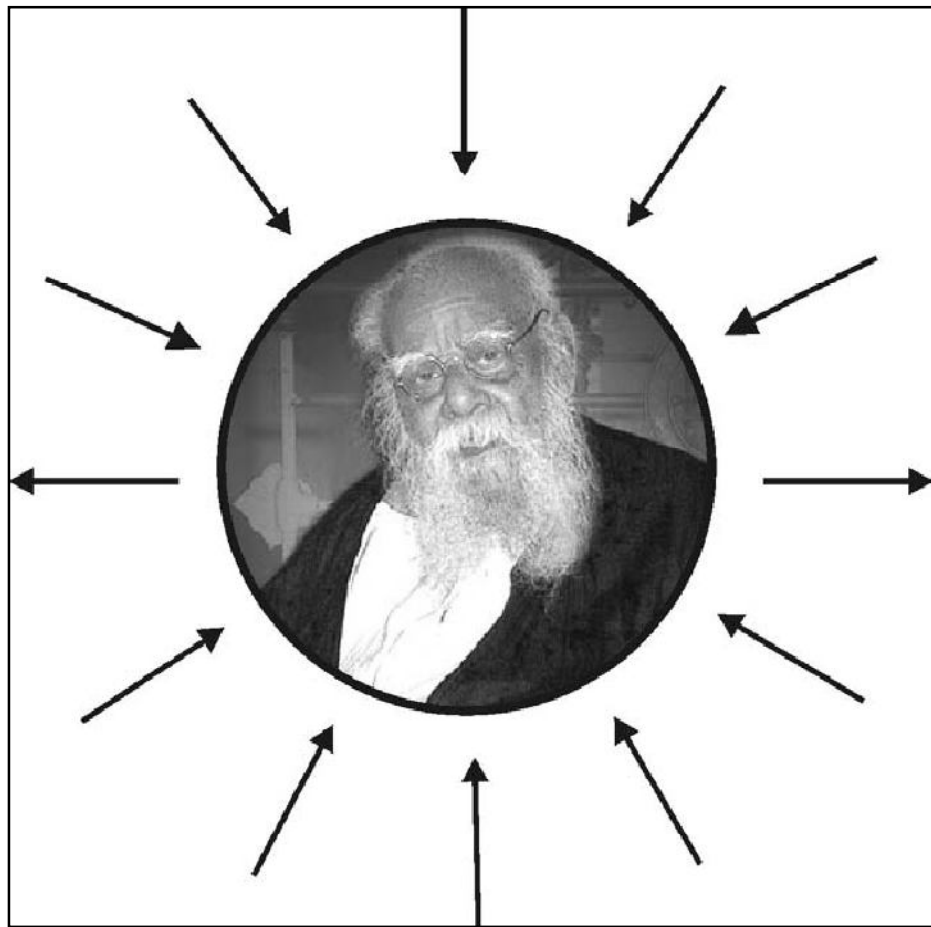

Figure 30

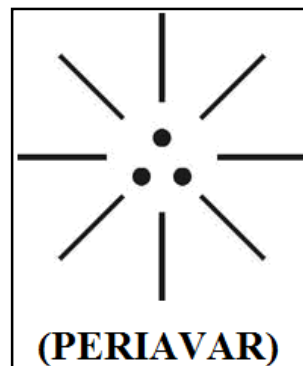

Figure 31

A man of **Black** and **White**. Through **black** he **absorbs** all Infrared and ultraviolet radiation and through **white** he **emits** visible spectrum of energy to keep the environment balanced and Healthy.

Black means holy; the Symbol of Sacrifice,  
White means Pure; the Symbol of Redeem.

Carbon is the Soul of Life. Author considers Thanthai Periyar as Electromagnetic Human evolved of dark matter and Anti-neutrinos of universe and sent as messenger of **HEAVENLY FATHER**.

### **34.Special Thanks**

Most of the data collected and presented in this article are base on case study from internet website through Google search. Author considers Google search mechanism as GOD or SUPER NATURE acting as a mediator to derive wisdom and intelligence from the global web link. Further heart felt thanks also extended to WIKIPEDIA, NASA'S administration for providing valuable information about prehistoric dark continent EZHEM (INDO) (so called MARS RED PLANET) and dedicated assistance extended by my office team. The prehistoric Dark Continent MARS planet might have become red planet during the course of expanding universe, thanks to nature also in cherishing the human population with enhanced colour to the human skin.
