Prehistoric Triphthong Alphabet

M. Arulmani

B.E., (Engineer)

V.R. Hema Latha

M.A., M.Sc., M.Phil., (Biologist)

Abstract:

Global level research is going on to explore about origin of life and first language and alphabets. Every country is having their own system of Alphabets for their communication. Further every language is having its own system of monophthong, Diphthong and Triphthong phonetics.

In Modern TAMIL LANGUAGE (so called Sentamil) there are 247 alphabets in usage including Aytum (or) Glitter alphabet in three tiny dot. The three tiny dot is pronounced as AKK, AKKARAM, AKKANNA in different dialect. It is speculated that the Akkana alphabet (Author hypothetically call as Akkie code) shall be considered as Prehistoric Unique Triphthong alphabet existing around 100 mya. The Akkana alphabet shall also be considered as Mother Alphabet of all global languages.

It is further focused that no global language is having exclusive Triphthong alphabet except Prehistoric Tamil Language. The Akkana alphabet shall be considered as having cluster of three Phonetic sound as mentioned below.

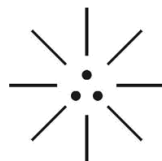

a) A (Pronounced as First sound in All)

b) IKK (Pronounced as Last sound in Look)

c) E (Pronounced as First sound in Ebrahim)

In British English there are about 24 classified Consonant Sound and 23 Vowels and diphthong. But there is no standard and exclusive alphabet for Triphthong sound. It is speculated that, in Prehistoric time, the Tamil Triphthong alphabet (Three tiny dot) shall mean to indicate the relative position of SUN, EARTH, MOON in the space. The integral part of Sun, Earth, Moon might be considered as STAR.

In the Triphthong alphabet, the position of each dot shall mean to represent as mentioned below.

(Prehistoric Triphthong Alphabet)

a) The right dot shall mean Moon (A)

b) The left dot shall mean Earth (IKK)

c) The centre dot shall mean Sun (E)

d) All three dot are jointly Pronounced as AKKIE.

The Prehistoric Triphthong alphabet is also in usage of many other ancient languages such as Hebrew, Arab, Persian, Sanskrit. But the philosophy and meaning of the Triphthong alphabet was not narrated anywhere in the history of that languages. It is speculated that in ancient time the TRINITY NATURE might be derived based on the philosophy of Prehistoric Triphthong (Akkanna Alphabet).

The famous evolutionist Charles Darwin Sir have already focused that the first language probably originated from Hominid Origin. The research on this article provides new solutions to the current mystic beliefs and theory.

a) Life originated from Single Origin.

b) Human ancestor have more genetic value than Apes.

c) Human ancestor already used advanced high level language in Prehistoric time.

d) Prehistoric Triphthong alphabet shall be considered as Scientific Electromagnetic code used for remote controlling of various planetary motion in the Space.

e) The Philosophy of Morse code, Mayan code, Braille code, Binary code developed during ancient time might be derived from the philosophy of Prehistoric Triphthong alphabet.

Key words: Philosophy of dot; Philosophy of Nature and Universe; Mars Code; Acronym "E"; Mathematical tool; Human a Mars Product; Ellipse; Eclipse; Indo; Oyez Culture; Acronym of MGR; Philosophy of Human Species

1.Introduction

Phonetics, Phonemes, Alphabets are the fundamental parameters of any organized Language. Language shall be considered as tool for fulfillment of needs and sustainability of Life. Effective Language shall mean to enhance life.

Today English is the widespread spoken and written language across the world. But English is not the Original language. English is believed to have derived from ancient Greek, Latin, Akkadin, Proto-Indo European Language. The philosophy of Prehistoric Triphthong Alphabet mainly focus the existence of ALIEN in Prehistoric time, origin of first language.

The Universe and matter is believed to have originated from cloud of STAR DUST. This research article focus that the first language alphabets might have been originated from Prehistoric human when lived in MARS PLANET around 100 mya. The Prehistoric human used language a high level Scientific Language in code form. The Prehistoric phonetics Akkie shall mean as follows.

- Akkie shall mean (Black Populations)
- Akkie shall mean Neutrino radiation.
- Akkie code shall mean Prehistoric Triphthong Alphabet.

It is focused that the Star dust, responsible for evolution of matter and life shall be considered as composed of three fundamental Neutrinos charged Particles Photon, Electron, Proton. It is focused that the Prehistoric Akkie Populations while lived in MARS, were expected in Astronomy, Astrophysics and effectively controlled the various planetary motion in the space through electromagnetic radiation (EMR) with advanced logic in code form (hypothetically called as BLACK BOX code logic)

The Philosophy of Black box logic Natural frequency of Oscillation of Earth shall be very well understood from the concept of SCHUMANN RESONANCE and TESLA'S experiment on AETHER energy experiment.

It is speculated that the Modern Scientists probably couldn't be able to control effectively the interplanetary motion in the space which might result in severe climate change condition, frequent earthquake, unexpected cyclones, sudden forest fire, volcanic activity etc.

It shall be stipulated that the Prehistoric Akkie populations shall be considered as Super Scientists and Super Manager compared to Modern Scientists and Modern Manager.

2.Hypothesis

- Prehistoric human already lived in MARS planet (Akkie population)
- Prehistoric human were expert in Astronomy and formulated Star system.
- Prehistoric Triphthong alphabet shall be considered as mathematical tool, (Natural logarithm).

3.Prehistoric Human Is Possible?

In Biblical Study it is learnt that Adam populations was existing in Prehistoric time and become extinct at one stage during the course of time. In Rig-Veda, it is learnt that Advanced civilized human lived in lost continent of LEMURIA. The populations were called as MU-Populations. From Archeological evidence it is learnt that various celestial human were depicted with wings.

It is hypothesized that the Prehistoric human were spontaneously evolved due to impact of Electromagnetic radiation consists of three fundamental charged particles Photon, Electron, Proton. They had only three chromosome on origin derived one each from Photon, electron, Proton. Further it is speculated that they had different genetic structures and wing like hands and capable of flying in the Sky. They had super wisdom and expert in Astronomy and controlling various planetary motion through electromagnetic code.

It is hypothesized that the Adam populations stipulated in the Bible might have lived in MARS PLANET and not on Earth Planet. The new generation probably started living on Earth Planet from NOAH Origin.

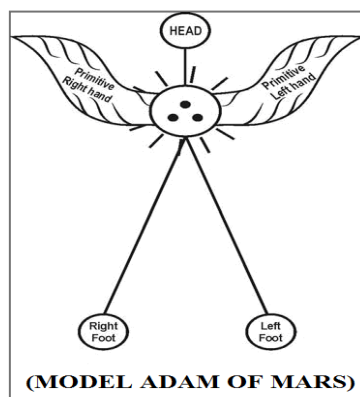

Figure : 1

4.Previous Published Articles

The philosophy of Model Cosmo Universe, Origin of first life, origin of first language, Prehistoric scientific code, philosophy of Alien etc were already published by the author through various International Journals. The new article titled as "Prehistoric Triphthong alphabet" shall be considered as extended version of previous publications with further research, additional case studies to focus about philosophy of Triphthong alphabet.

- The Super Scientist of Climate Control (IJSER, May issue, 2013)
- Akkie Mars Code (IJSER, June issue, 2013)

- Mars Trisomy Human (IJOART, June issue, 2013)
- Mars Mathematics (IJERD, June issue, 2013)
- The Mystery of Crop circle (IJOART, May issue, 2013)
- Origin of First Language (IJIRD, June issue, 2013)
- Three Principles of Akkie Management (Accepted for publication in AJIBM)

5. Etymology Of Word Triphthong

It is focused that the origin of English word Monophthong, Diphthong, Triphthong is not clear. It is hypothesized that the etymology might be derived from the Prehistoric Tamil Phonetics as narrated below.

- The word monophthong derived from Tamil phonetics Mano + Thalam, Mano shall mean Natural, Thalam shall mean sound. Manothalam shall mean natural sound (single mode)
- The word Diphthong derived from Tamil phonetics Tappa + Thalam. Tappa shall mean two; thalam shall mean sound. Tappa thalam shall mean sound produced from two mode.
- The word Triphthong derived from Tamil phonetics Thiri + thalam. Thiri shall mean three; thalam shall mean sound. Thiri thalam shall mean sound produced from three mode

6. Hypothetical Narration

6.1. The Philosophy Of "Dot":

The dot shall be considered as the origin of Cosmo universe. The star dust shall be considered as a single dot. The star dust shall be considered composed of as three fundamental neutrinos photon, electron, proton. During the course of expanding universe (space and time). Electromagnetic Radiation (EMR) might be evolved which shall be considered as responsible for evolution of all space matters such as planets, comets, Asteroids and origin of life and micro organisms.

In Prehistoric time the star dust, Neutrino radiation, might have been represented in "dot" form. It is stipulated that Dot shall be considered as the fundamental concept for developing any kind of Alphabet weather digital alphabet (or) syllabic alphabet. The philosophy of Matrix Printer might be derived from philosophy of Prehistoric dot alphabet.

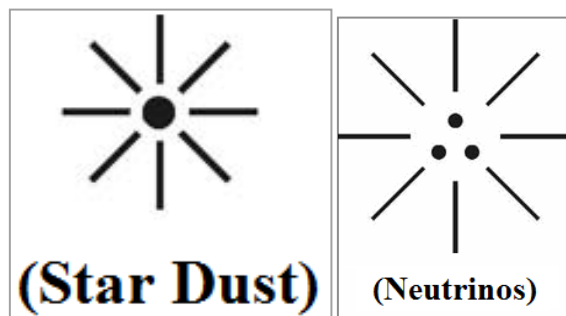

Figure : 2

Figure : 3

The right dot shall be considered as Proton
 The left dot shall be considered as Electron
 The centre dot shall be considered as Photon

The single dot shall be considered as monophthong alphabet; the three dot shall be considered as Triphthong alphabet. In Prehistoric time the star dust might be called as AKI; the Neutrino radiation might be called as AKKIE; the electromagnetic radiation might be called as AKKINI.

6.2. Philosophy Of Model Cosmo Universe

The concept of Cosmo Universe shall be considered as Cosmo + Universe. Cosmo shall be considered as Origin. Universe shall be considered as three independent region evolved during the course of time (space and time). The three regions of universe shall be considered as having three different Physical, Chemical, Mathematical properties.

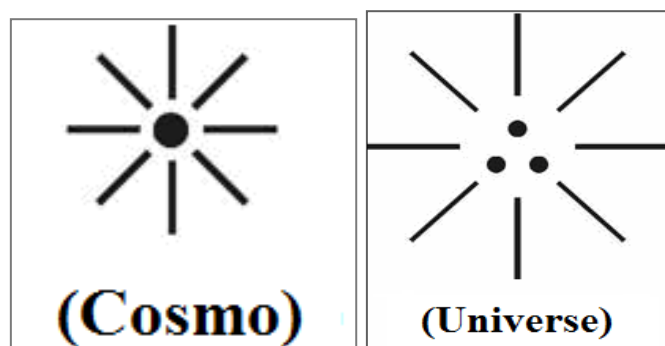

Figure : 4

Figure : 5

In Prehistoric time the Cosmo Universe might be called as Akkilem. (Akkie + Eghem) the Cosmo, Universe might be represented in single dot (Monophthong), Three dot (Triphthong).

6.3.Philosophy Of “STAR”

It is focused that the Prehistoric Akkie populations were expert in Astronomy. They might have defined star as integral part of three-in-one space objects SUN, EARTH, MOON. They might have represented “star” with Triphthong alphabet (Three tiny dot) as below.

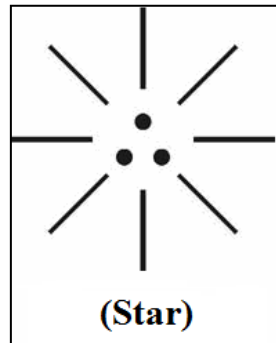

Figure : 6

The right dot shall be considered as MOON.
 The left dot shall be considered as EARTH.
 The centre dot shall be considered as SUN.

In Prehistoric time STAR might be called as MA-AKKIE. MA shall mean Great; AKKIE shall mean Star. Ma-Akkie shall mean Great Star or Mega Star.

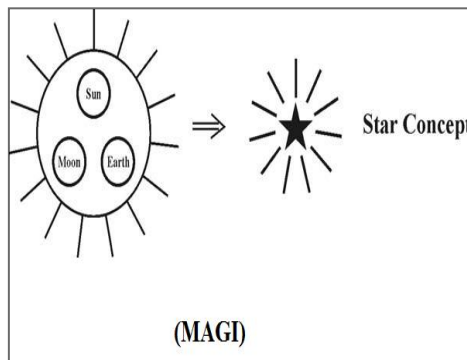

Figure : 7

It is speculated that the philosophy of MAGI stipulated in Bible, might be derived fro philosophy of MA-AKKIE. Similarly the philosophy of Cresecent with star stipulated in QURAN might be derived from the philosophy of MA-AKKIE.

6.4.Philosophy Of Mathematical Constant Pi, E, I

It is focused that pi, e, i shall be considered the three important parameters for formulating the behavior and characteristics of Universe and matter.

The three parameters shall be considered as Triphthong parameters.

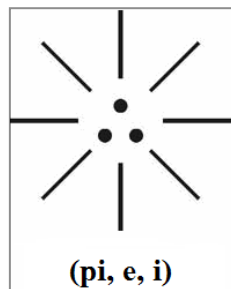

Figure : 8

The right dot shall be considered as “Pi”
 The left dot shall be considered as “e”
 The centre dot shall be considered as “i”

The parameter e, pi shall be considered as having inverse characteristics. It is focused that in modern mathematics the value of e (Euler’s Constant), pi have fractional digit to the level of thousands and above with varying in characteristics i.e. the value of pi

increases and proportionately the value of e decreases. This variation may be due to misalignment in star system i.e. misalignment in relative position of SUN, EARTH, MOON. Scientists proposed many theories for finding nearest accuracy level for the value of π , e . The value i shall be considered as imaginary number which is applicable in various mathematical formula in arriving behavior of Universe and matter. It is hypothesized that the value of π and e are equal in prehistoric time and value shall be considered as 3.0.

It is further focused that in Prehistoric time the Akkie populations might have adopted logarithm with base 3 as “Natural logarithm” to formulate the logarithmic behavior of Universe and matter. They might have considered log base 3 as pure Mathematics. In modern time the adoption of philosophy of log base “ e ” as Natural logarithm might be derived from the philosophy of “log base 3”. (Triphthong tool)

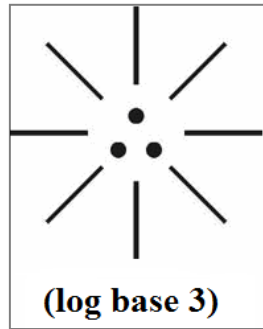

Figure : 9

Further three dot is also used as mathematical logic.

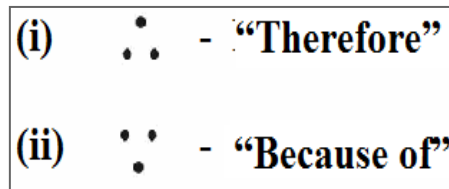

Figure : 10

It is focused that the acronym “ e ” might be derived from Prehistoric Triphthong code (Three tiny dot). “ e ” shall mean Origin. In modern English the etymology of word element, Ethernet, email, ethic might be derived from the philosophy of acronym “ e ” In Arab language the etymology of word ELAHI (E+AKKIE) might be derived from the philosophy of Prehistoric Triphthong alphabet (Three tiny dot)

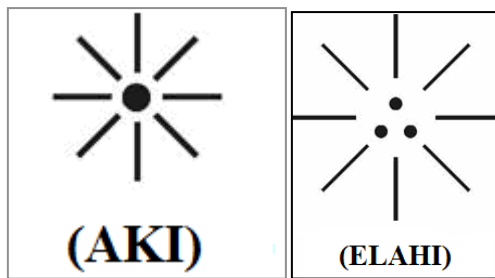

Figure : 11

Figure : 12

6.5.Philosophy Of “Eclipse”

It is focused that the philosophy of eclipse associated with three space objects SUN, EARTH, MOON might be derived from the philosophy of Prehistoric Star definition (i.e.) star shall be considered as integral part of these space objects SUN, EARTH, MOON. It is hypothesized that the SUN, EARTH, MOON are rotating only on its axis and not revolving. The solar eclipse, lunar eclipse might be occurring due to relative position of SUN, EARTH, MOON at specified point. The specified point may be continually shifted during the course of time as the MOON is moving away from its line of axis with earth.

6.6.Philosophy Of “Ellipsis”

It is focused that the philosophy of ellipsis in English language (linguistics) might be derived from the philosophy of Prehistoric Triphthong Alphabet (Three tiny dot) alphabet.

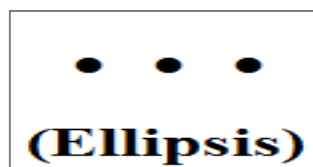

Figure : 13

6.7.Philosophy Of “Triphthong” Language?

It is focused that the philosophy of global language structure might be derived from the philosophy of Prehistoric Triphthong alphabet.

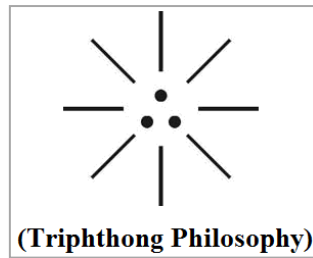

Figure : 14

In any system language Verb, Noun, grammar (Law) shall be considered as the three fundamental Key Area. The right dot shall be considered as Verb, responsible for functional part of language; The left dot shall be considered as Noun responsible for structural part of language; the centre dot shall be considered as grammar responsible for law part of language. Millions of phonetics, and thousands grammar rule of language can be accommodated within three fundamental key area of Prehistoric Triphthong alphabet.

Further in any global verbal language the three human parameters shall be considered as three source of phonetics of language.

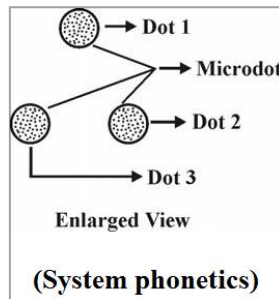

Figure : 15

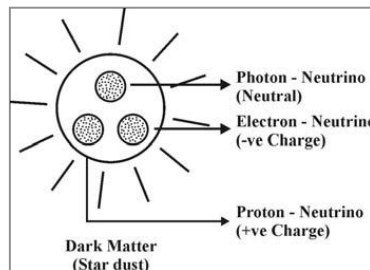

Figure : 16

The right dot shall be considered as “Tongue” responsible for monophthong; the left dot shall be considered as “LIPS” responsible for Diphthong; the centre dot shall be considered as “Throat” responsible for Triphthong.

It is further stipulated that “silence” shall be considered as most high level language. Silence shall be defined as the integral state of Tongue, Lips, Throat.

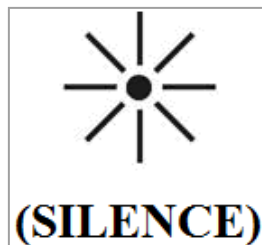

Figure : 17

6.8.Philosophy Of “Treble Clef”

It is focused that the philosophy of logo of Treble clef shall be referred to stereo effect of sound in MUSIC SYSTEM consisting of a cluster of three type of sound having low frequency sound, medium frequency sound, high frequency sound. Stereoscope means view of picture in three dimensional way of length, breadth and depth. The philosophy of Treble clef might be derived from the prehistoric TRIPHTHONG ALPHABET.

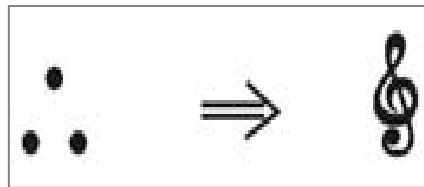

Figure : 18

6.9.Philosophy Of “Ampersand”

The Ampersand symbol is frequently used in English language and computer language for performing certain digital logic function. In fact in English the ampersand symbol is considered as the 27th alphabet. It is believed that the ampersand character predates more than 1500 years and the origin of this character is not exactly known. In the first cursive, when wrote the Latin word “et” which means “and” which linked e and t over the time it signified the word “and” in English as well. The ampersand is also used as “&c” and means etc as in Latin usage i and t. After the absent of printing in Europe 1455, printers made extensive use of both Italic and Roman ampersand. The ampersand often appeared as a letter at end of Latin alphabet as appeared as last letter in English alphabet (27th alphabet). It was in the year 1837 when dictionary officially started include the word ampersand in the list. It is focused that the philosophy of ampersand character might be derived from the philosophy of prehistoric TRPHTHONG ALPHABET.

Figure : 19

6.10.Philosophy Of “Oyez ” Culture

In English the term OYEZ refers to the whistling sound raised by the court masters while leading the judges to the chamber in the court by alerting the public. In prehistoric time the MARS population deliver the judgment by pronouncing jointly by lips, tongue and heart. This prehistoric practice might be also followed in modern time and the court masters whistling the sound three times to remind the judge that the judgment shall be pronounced jointly by lip, tongue and heart rather than lip and tongue alone. Marshal mean prehistoric person who pronounce JUSTICE jointly by three parameters lips, tongue, heart. The trinity culture, trivium culture might be derived from prehistoric MARS Culture.

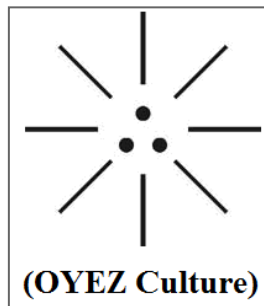

Figure : 20

6.11.Philosophy Of “MGR” Culture

In prehistoric time the acronym MGR shall mean MARS GEO RULER. The prehistoric human when lived in MARS might have been called in short as MGR. They were capable of controlling MARS Planet, Earth Planet through advanced electromagnetic communication in prehistoric time. The famous Tamil based Indian ponmana chemmal MGR in Tamil cinema some time may be having winged personality while dancing. It is focused that the philosophy of flying culture of MGR while dancing might be derived from the philosophy of prehistoric human flying culture.

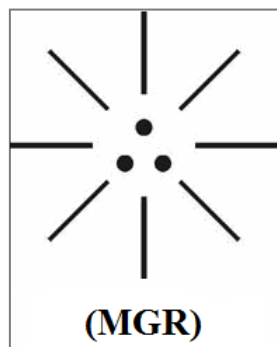

Figure : 21

6.12. Human Is A MARS Product?

MARS CODE shall be considered as Prehistoric scientific language involved with three tiny dot adopted by Prehistoric Akkie populations when lived in MARS planet.

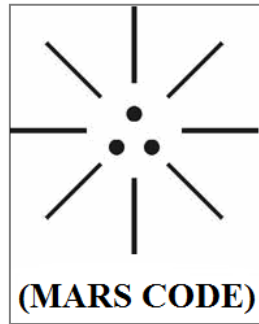

Figure : 22

It is focused that every human in the world shall be considered as the product of MARS irrespective of country region where he lives. Every human is naturally embossed with Mars code.

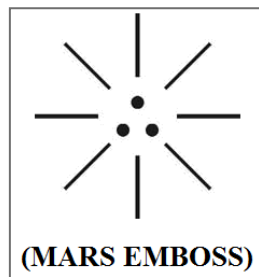

Figure : 23

The right shall be considered as right nipple responsible for functional part of human; the left dot shall be considered as Left nipple responsible for structural part of human; the centre dot shall be considered as NAVEL responsible for law part of human. It is hypothesized that every human is tuned with three fundamental Neutrino Particle, of space. The human characteristics shall be considered varying when the characteristics of Neutrinos Varies.

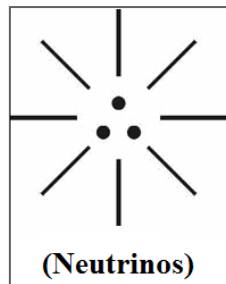

Figure : 24

The right dot is tuned with "Proton".
 The left dot is tuned with "Electron"
 The centre dot is tuned with "Photon"

6.13. Philosophy Of "Triphthong Nature" And "Species Nature"?

"Triphthong Nature" shall be considered as the evolution of all space matters such as various planets, Comets, Asteroids, Various Natural elements, molecules, Compounds, gases before origin of first human. Formation of Various matters after origin of human shall be considered as "species Nature". Species Nature shall be considered as the Deviation in genetic structure to the Triphthong Nature.

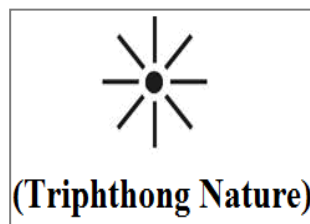

Figure : 25

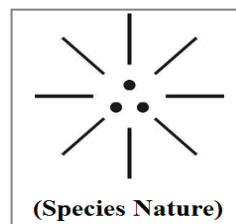

Figure : 26

In Prehistoric time various natural Plants were evolved. This shall be called Triphthong Nature Plants. After Origin of Human Various Crops were made by altering genes to the existing Trophthong Nature Plants . These crops shall be called as “Species Nature Plants”.

Various gases like Ozone, Nitrogen, Carbon were evolved before origin of human shall be called as “Triphthong Nature gases”. After Origin of human the artificial Carbon, Nitrogen, Ozone shall be considered as “species Nature gases”. It is focused by the author that the absolute Physical, Chemical, Mathematical Properties of “Triphthong Nature Oxygen” can not be equated with properties of “Species Nature Oxygen”.

In Miller experiment it was established that spontaneous origin of life was not possible which was experimented with “Artificial lightning” produced in the laboratory. It is focused that the existence of electromagnetic radiation before origin of human had different Properties which can't be equated with the properties of artificial lightning produced at laboratory. It is hypothesized that spontaneous origin of human is possible with impact of electromagnetic radiation in prehistoric time. The Prehistoric electromagnetic radiation shall be called as “Triphthong Nature Electromagnetic radiation”. The artificial lightning Produced at laboratory shall be called as “Species Nature electromagnetic radiation”.

It is focused that the prehistoric human with 3 chromosomes shall be called as “Triphthong Nature Human”. Subsequently the human with 46 chromosome started living in Earth planet shall be called as “Species Nature human”. The global level human populations shall be classified under fundamental three eye Iris (i.e.) Blue Iris, Green Iris, Red Iris populations evolved from Prehistoric Akkie populations.

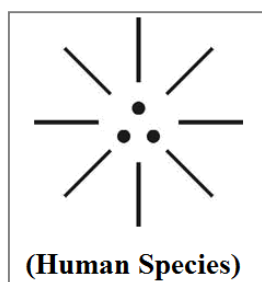

Figure : 27

7. Conclusion

It is focused that the prehistoric Triphthong alphabet (Three tiny dot) shall be considered as “Triphthong Nature alphabet”. (i.e.) this alphabet was existing even before origin of First human. All the global languages shall be considered as “Species Nature languages” evolved from Triphthong nature alphabet.

It is focused by the author that during the course of expanding universe from star dust the first MUSIC SOUND might be emanated from three Fundamental Neutrinos, Photon, Electron, Proton. The First Music Sound Produced by Neutrinos shall be called as “TRIPHTHONG NATURE MUSIC”.

It is focused that the Philosophy of “Treble clef” composed of three stereo sound might be derived from prehistoric. Triphthong Nature alphabet. The Treble clef shall be call as species Nature Music alphabet as.

Similarly all other global Musical alphabets shall be considered as “species Nature Music alphabets”.

It is focused that the prehistoric Music sound evolved during the course of expanding Universe (Space and time) shall be very well understood from the theory of “SCHUMANN RESONANCE”.

It is focused by the author that the “Triphthong Nature alphabet” (Star dust) shall be considered as the CENTROMERE of the whole universe responsible for evolution of all planets, Matters, life etc. The hypothetical “model of Universe” was already Published in the IJIRD May issue, 2013.

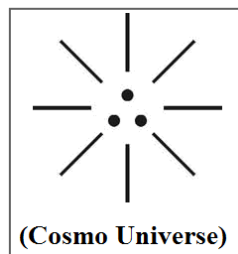

Figure : 28

The philosophy of “Cosmo Universe” might be derived from philosophy of prehistoric Tamil Phonetics “AKKILEM” (AKKIET +EZHRM) Akkie shall mean “Dark Flame” (Thiphthong Nature alphabet); “Ezhem” shall mean three regions of Nature. Akkilem shall mean “Existence of Nature on Dark Flame”.

Further the philosophy of Human Triphthong ethics focused under three major area ARAM, PORUL, INBAM, in Thirukural by Ancient tamil poet Thiruvalluvar, might be derived from the philosophy of “Triphthong Nature alphabet”.

In human Anthropological science, the citation of DRAVIDIAN RACE, ARYAN RACE, shall be considered as the HUMAN SPECIES to Prehistoric AKKIE POPULATION lived in MARS Planet. During the course of time of expanding Universe (Space and time) the Prehistoric Akkie populations might have become extinct completely and New human generation might have started living on EARTH PLANET with new genetic structure. The Thiphthong Nature alphabet shall be considered as the SEED of all Earthly languages. “NATURE” shall mean THREE – IN – ONE.

Figure : 29

8. Case Studies

8.1. Case Study On Geological Time

Era	Period	Epoch	Millions of years ago
Cenozoic	quaternary	Holocene	0.01
		Pleistocene	2
	Tertiary	Pliocene	5
		Miocene	24
		Oligocene	38
		Eocene	55
Mesozoic	Cretaceous	Paleocene	65
	Jurassic		144
	Triassic		213
Paleozoic	Permian		248
	Carboniferous		286
	Devonian		360
	Silurian		408
	Ordovician		438
	Cambrian		505
	Precambrian		590

(Concise of oxford Dictionary)

Table : 1

8.2. Case Study On Ancient World

S.No	Name	Year	Script
1)	Indus-Valley/Harappa	3000-1500BC	Pictographic
2)	Mesopotamia	3000-750BC	Cunieform
3)	Chinese	1600BC-1AD	Chinese
4)	Persian	730 BC	Cunieform
5)	Greek	2700-1500 BC	Greek
6)	Roman	600 BC	Latin
7)	Shang Dynasty	1600-146 BC	Hiero glyphic
8)	Mayan	1500Bc-300AD	Grolier codex

Table : 2

(i)	Lost continece of Lemuria	- 5,00,000 years ago
(ii)	Java, Atlantic civilization	- 4,00,000 years ago
(iii)	Lost big temple in the world dedicated to God Vishnu (Angkor wat Thailand).....	- 2,00,000 years ago
(iv)	Devas, Nagas tribe ruled Elem mandalam	- 3,00,000 years ago
(v)	Sahara was not a desert but green and fertile plau	- 10,000 BC
(vi)	Lost of Jericho civilization	- 9000 years ago
(vii)	Lost city of catal huguk (Turkey).....	- 8000 years ago
(viii)	Lost of Sumerian civilization.....	- 5000 years ago
(ix)	Sunk of Egyptian ship in the sea in red sea in the strom.....	- 4000 years ago
(x)	Built of Mega lithic structure	- 4000 BC
(xi)	Giza plateau buit in ancient Egypt.....	- 7000-5000 BC
(xii)	Discovery of Egyptian mummies inchina desert takla mankan	- 2000 years ago
(xiii)	Mesopotamian chariot wheel developed by Europe	- 1400 BC
(xiv)	Lost of Minonan civilization (Greek Philosophy).....	- 1450 BC
(xv)	Lost of ophir city (Founded by King soloman)	- Belived to exist in Zimbabwe (or) in Indus river
(xvi)	Olmees civilization (oldest in America) ..	- 1150 BC
(xvii)	Lost city of Tikal (Mayan civilization of South America)	- 900 AD
(xviii)	Lost of Aurora Island due to earthquake (South Atlantic).....	- Around 1800 AD
(xix)	Discovery of Nazca drawing in the desert of south west peru	- 300 BC- 800 AD

Table : 3

8.3.Case Study On INDO Population

It is focused that the philosophy of INDO population shall be considered as HUMAN SPECIES to prehistoric Akkie population lived in MARS planet. Subsequently during the course of time Dravidian, Aryan population might have been evolved and started living in different region under different environmental condition. The philosophy of various human races shall be considered derived from INDO population.
