

**Call for Editorial Board members for
Indian Journal of Computer Science and Information Technology**

We, **Associated Management Consultants Private Limited**, take pride in having been the publishers of India's leading research journals in the field of Marketing, Finance, Management, Economics, and Capital Markets. We have been publishing Indian Journal of Marketing, Indian Journal of Finance, Prabandhan: Indian Journal of Management, Arthshastra Indian Journal of Economics & Research, and Indian Journal of Research in Capital Markets since 1968, 2007, 2008, and 2012, 2014, respectively. Our Journals were created to address the serious deficiency of good-quality journals in the field of Business Management in India, provide well-researched and tested benchmarks for the academia and industry, and also provide an outlet for established and rising scholars to publish innovative and ground-breaking ideas. We have firmly established ourselves as the leading journals of research in Business Management in India. **Our journals - Indian Journal of Marketing, Indian Journal of Finance, Prabandhan: Indian Journal of Management are also indexed in Elsevier's Scopus, the world's largest and one of the most prestigious abstract and citation databases of peer-reviewed literature.**

We are happy to announce that we are going to launch a new journal 'Indian Journal of Computer Science and Information Technology', a journal that provides a platform to researchers, academicians, professionals and students in all areas of Computer Science to share research achievements, their perspectives, and practical experiences.

Indian Journal of Computer Science and Information Technology is meant to be a peer reviewed refereed journal that aims at the dissemination of knowledge about research in Computer Science. The aim of the Journal is to provide a platform to researchers, practitioners, academicians, professionals and students associated with the field of Computer Science to share their knowledge. To encourage and promote research and sharing knowledge across a wide breadth of areas pertaining to Computer Science, the journal will have original research papers as well as case studies, perspectives, trends, and reviews of software and mobile applications, devices, hardware and technology covering diverse areas of Computer Science.

The journal will cover, but is not limited to the following topics:

Artificial Intelligence	Decision Support Systems
Big Data	Digital Content Analytics
Biotechnology and Computer Science	Enterprise Applications
Cloud Computing	Gaming
Computer Aided Design	Mobile technology and applications
Computer Networks	Natural Language Processing

Cryptography	Operating System
Cyber Crime	Parallel and Distributed Computing
Data analytics and pattern recognition	Social Media
Database	Software Programming
Data mining	System security
Data Structures and Algorithms	Video Processing

We recognize the importance of having experts who can give their valuable opinion and comments on contents of a journal. We firmly believe that your contribution will enrich the academic and intellectual content of the journal. **Therefore, we invite you to become a member of the Editorial Board of Indian Journal of Computer Science and Information Technology.**
