Call for Papers for
Indian Journal of Computer Science and Information Technology

We are happy to announce that we are going to launch a new journal 'Indian Journal of Computer Science and Information Technology', a journal that provides a platform to researchers, academicians, professionals and students in all areas of Computer Science to share research achievements, their perspectives, and practical experiences.

Indian Journal of Computer Science and Information Technology is meant to be a peer reviewed refereed journal that aims at the dissemination of knowledge about research in Computer Science. The aim of the Journal is to provide a platform to researchers, practitioners, academicians, professionals and students associated with the field of Computer Science to share their knowledge. To encourage and promote research and sharing knowledge across a wide breadth of areas pertaining to Computer Science, the journal will have original research papers as well as case studies, perspectives, trends, and reviews of software and mobile applications, devices, hardware and technology covering diverse areas of Computer Science.

The journal will cover, but will not limited to the following topics:

Artificial Intelligence	Decision Support Systems
Big Data	Digital Content Analytics
Biotechnology and Computer Science	Enterprise Applications
Cloud Computing	Gaming
Computer Aided Design	Mobile technology and applications
Computer Networks	Natural Language Processing
Cryptography	Operating System
Information Systems	Parallel and Distributed Computing
Data analytics and pattern recognition	Social Media
Database	Software Programming
Data mining	System security
Data Structures and Algorithms	Video Processing

We invite you to submit original research papers, articles, reviews and opinions for the journal. Original research papers should follow the APA format.

Please send your papers to
